### Sapporo Rally, July 10, 2011

#### **From Japan Sanctuary Church Leader Queen Erikawa's opening remarks:**

...Something happened at Family Federation, but they are saying Sanctuary Church is to blame. Family Federation needs to repent, but instead they are saying SC did something wrong. But we did nothing wrong. Regarding Tetsuya Yamagami (assassin of Prime Minister Abe). There are many groups in our church. I called all the groups and had people call other groups as well, but there is no record of him, no one knows him. We are saying clearly that there is no record of him. We are not trying to escape the blame. We need to fight against unrighteousness. I believe God is working to advance His Will. What is crucial is our faith. Our solidarity in faith will bring Heavenly fortune. We are being struck. Those who strike first will be destroyed. We are not doing anything wrong. Let us be righteous and strong. Have stronger faith, greater unity. Satan struck Eve and, in the end, HJH also. He wants to take the Eve nation as well. True Father said even God initially opposed him choosing Japan as Eve nation, but TF said he would take responsibility. He persuaded God to make Japan the Eve nation. TF said in tears that he can never forget that first love he had for Japan. TF gave his love and life to Japan educating 160,000 Japanese women and 20,000 Japanese men. Didn't TF give life to Japan? We are the ones who accepted this (responsibility). Let us respond to that trust TF and 3 Generation Kingship have in us and walk the path of victory.

## **2<sup>nd</sup> King's Speech**

Is this Hokkaido? Sanctuary Church members, you have come from many places. Thank you for your hard work during this tour.

First of all, let us express our heart-felt condolence from our family and all Sanctuary churches around the world to (former) Prime Minister Shinzo Abe's family and to everyone in Japan. Former Prime Minister Abe was truly a great hero of Asia. He was called Asia's Trump. As Asia's Trump, when President Trump fought against world globalists and international communist organizations, former PM Abe played a great role not only for Japan but for all Asia.

Therefore, former PM Abe is a complete hero on Heaven's side. As a person who fought for freedom and peace it is truly a sad occurrence. Not only all Japan but people from all over the world are now expressing their condolences. With that heart, we must absolutely never forget the life and accomplishments of former PM Abe. Also, the conservatives of Japan, Korea, America and the world must become stronger and defeat the extreme leftists and international communism by ideology and thought.

Since we are in such a serious time, with that content, thinking on the world level... Also, Trump's family and the whole world are expressing their condolences. The patriots really need to stand up and become world level people who can win against political satanism and leftist ideology.

Since that is the age we are in, all people need to offer much prayers. Prayers.

### **Hak Ja Han's Fall, 2<sup>nd</sup> King was Correct, World Judgement**

Because of HJH's betrayal, the world is under judgment. She denies Abonim and says Abonim fell, Abonim was born with original sin. In that way she denies Abonim with content that is completely satanic. Since Abonim is the Messiah, I spoke out against that 10 years ago to the whole world.

We went into the wilderness. In the wilderness the veterans became our brothers and sisters and Christians became our brothers and sisters. While the people that had followed Abonim went the way of the fall, Abonim's Holy Spirit searched for and brought back the members one by one.

In that most difficult time, President Trump won the election centered on Pennsylvania. His sons came to Tommy Gun Warehouse and met us. Through that type of content... Wow! Even the Christians who had opposed Abonim and the veterans protected Abonim's Three Generation Kingship.

From 7 years ago, because of the cosmic fall, since Abonim is the Messiah if you deny Abonim it will be a cosmic fall. It's impossible for it not to come. We knew this because we believe in Abonim.

However, HJH completely went the opposite way. During these 10 years, how much she denied Abonim with her own mouth. All the citizens of the world can now see that.

Only saying bad words and telling us to die. They appear in the rally and say “Hyung Jin Nim, please stop.” They made teams against us and became complete frauds and cowards. They only sought for money. When they see people, they only see money. In the Sanctuary Church, we don’t have money and the people are few, but we have love for Christ, love. (Applause)  
Therefore, we are rich people.

In that most difficult time, the veterans and Christians protected Abonim’s Three Generation Kingship and worked together for President Trump’s election. How great and surprising accomplishment (of the Holy Spirit) that was, when we had nothing, had left everything behind.

Through this kind of content, Abonim’s worldwide foundation, HJH tried to destroy it from the fallen position, but Abonim began the work to save people. The members began to return to Sanctuary Church, from 10 or so people to several hundred, now on the world level several 10,000 members have returned to Abonim’s authority. (Applause)

During these 10 years, they tried to cover up for HJH who only said lies, but she said everything with her own mouth. Everything was exposed. “I don’t believe in Abonim. I don’t believe he is the Messiah.” She thinks she saved Abonim, that she is the only begotten daughter long awaited by Christianity for 6000 years. She never read the Bible; it’s all nonsense. What kind of Christian that knows the Lord would ever... It’s nonsense.

With this kind of content, they are going the way of destruction telling lies as frauds. What they disliked most about the representative body, heir, successor of Abonim, 2<sup>nd</sup> King, Cain and Abel, is that after Abonim’s seonghwa, (we said) the donation providence (from Japan) is over, it is finished. HJH and the others really didn’t like that and chased us out.

Every year, through Kook Jin Nim, all the businesses of the Foundation were prospering. Abonim’s providential businesses, the Foundation and all the churches of the world were developing. Not just Japan, all the (Unification) churches around the world were taking responsibility together. Korea didn’t have that donation system, but Japan and American had that system. He reduced the amount of donations from Japan. It ended with Abonim. We made the businesses prosperous and other things so that we could continue the providence (without the donations). But they objected to that the most. So, they made a strategy and completely chased us out.

In that kind of situation, they only say lies, lies, lies. The world media is exposing their lies. In Korea, a large newspaper company called Munhwa Il-bo is publishing that truth, the reality. That reality will continue to come out. Those frauds and fakes will be destroyed. They lied from the start and lie to the end. If you start as a fraud, you end as a fraud. There is no loyalty among thieves. They stole Abonim’s foundation, even though he didn’t give anything to HJH. He established his heir, successor, representative body but the Kwak group and the HJH group stole it and appointed themselves as they liked.

I did not appoint myself. I didn’t put the crown on my head. Abonim put the crown on my head. (Applause) Even so, we threw all that away because HJH was going the way of satanism, heretic and destroyer. I begged and begged her not to go that way, but she desired pleasure,

temptation and power so much that she went the way of disastrous failure. Now after 10 years, they are going the way of total destruction.

Abonim's judgment is a judgement of love, judgement of love. With that kind of betrayal of Christ, judgement will come to the world, from micro to macro. On the macro-cosmos, there is now an atmosphere of world war, of nuclear war. America and NATO sent 30,000 troops to face Russia, but now they are trying to send 300,000 troops to fight Russia.

The BRICS countries, Brazil, Russia, India, China, South Africa and Iran met together and excluded America. They are making a new currency to overturn the dollar. I warned about this 2 months ago to all the members, to be careful about BRICS. You should have heard me speak of this 2 or 3 months ago. Now they are creating a new currency. Putin, Xi Jinping, Bolsonaro and two presidents met together last week. This is to destroy the dollar. If the dollar collapses, Japan and Korea will collapse. Japan and Korea's debt is in dollars.

A few days ago, Russia, China and Venezuela were preparing to have the largest military exercise in the Pacific, right under the US in South America. Venezuela opened the way. Russia entered, China entered, in Venezuela, a communist country.

Through the Corona fraud the world's free countries are becoming poor. Gas and food prices are rising, the modern countries are becoming poor. If you look at the GDPs in 2021, only China became richer, only China made profit. The Corona fraud biological weapon came out of their country, but their GDP grew from the Corona. The GDP of all countries declined, but only in China it increased. That Corona biological weapon came out of the Wuhan level 4 virus research lab! The only level 4 virus research lab in China. You all know they researched the Corona virus there and that it came from there. China spread that artificial disease to the world and several 10s of thousands of people died, the economies of all the countries were damaged during 3 years.

The super elites, Pfizer, Walmart, Google, Facebook, Twitter made trillions of dollars. They're all leftists. While all the countries became poorer, only China grew stronger. Last week, they said that Taiwan is absolutely Chinese territory and that it will absolutely be joined with China. This means the 3<sup>rd</sup> World War is about to happen.

HJH's cosmic fall! The cosmic fall in the microcosm destroys the world. We said this to them 10 years ago. The Family frauds only pursued their greed, say bad words and told me to die. and stole money. If there was money, they stole it. But look at the world, it is being destroyed. That is the reality of the world.

### **Entering the Era of World War, Former Prime Minister Abe's Assassination**

Therefore, all citizens should prepare, prepare in heart and in body. The most important point is that for 7 years I was saying to prepare a foundation to be able to overcome an emergency situation. Many members left the city and learned farming, taking responsibility. During the last 7 years, I was telling Sanctuary members. But you didn't think this emergency would come so quickly, did you? The world is now in a fearful time. World War doesn't happen overnight. People become more and more sensitive, then some people intervene, one country intervenes,

other countries intervene, some countries pull out, another country joins. In this way the tension rises until it becomes so strong that they can't pull out and all the countries start to fight.

NATO and Russia are not small countries. They are nuclear super powers. This is not a game. It is not a joke. Russia and China say they will become one team. Because of usurper Biden America became weak. Under that situation, the whole world is in the age of judgement.

We told HJH this 10 years ago. These frauds who love money. But I begged mother not to go this way, "You will receive Abonim's judgement." If he is not the Messiah, even if HJH steals money no judgement comes to the nation. But Abonim is the Messiah and world judgement has come. Just as we told HJH 10 years ago.

Those frauds only like their position and money. I love my Omma so I told her the truth. "Please don't go this path. If you betray Abonim, you will be judged, Omma." Because we believe in Abonim. If Abonim is the Messiah and that type of cosmic fall occurs, judgement will come. If he is not the Messiah, even if HJH steals the money there's no relationship, the country continues. But like we said, world war has now come.

People fall into fear in this situation, but through the Bible and through Abonim's words we seek the future Kingdom of God, the Kingdom of freedom, peace and unity, Cheon Il Guk (CIG) nation. The Family fraud created the false, communist constitution, completely satanic constitution. Abonim's representative body, successor, heir, the Three Generation Kingship presented the CIG Constitution of freedom and responsibility. Freedom and responsibility.

Communism is the enemy of CIG. We understand that through the age of judgement Abonim's Kingdom is coming. It doesn't matter what the HJH group, the Kwak group try to build with the money they stole. They will all go to hell. When they go to spirit world they will be in hell. They can't go to be with Abonim unless they repent. That is their choice. Even if there is judgement we don't fear, because even if world war comes God's Kingdom will come. (Applause) Whether we see it or not, that Kingdom has come. Just as we said 10 years ago. It has happened. Within 7 years worldwide disease, Corona fraud, aggression and now world war has come.

What should people do in that situation? Those who already prepared will become the center of the town. Those who built up a farming system, water system, food supply system, who built a network, radio and security system with their neighbors, those people will become the center of that town.

If you do that and a crisis happens, if China seizes Taiwan and threatens Korea and threatens Okinawa of Japan, the more they do that the faster people will wake up. Won't they want to see who has prepared? They will want to know who was prepared and from whom they can learn what to do. We don't have money and are few in number but since we prepared and established a system for 7 years with a heart to love God and love our neighbors that will become a great help for the people of the town.

As it says in the Bible, there is a quickening in the last days. Everything is becoming faster. Satan's side only has lies, aggression and fraud, but the truth emerges. For 10 years, didn't they tell Abonim's representative body, heir and successor to die? Telling all kinds of lies, calling him

a reprobate while saying, “HJH absolutely loves Father and is one with him.” Now after 10 years, everything came out from her own mouth. You saw the videos, right? She was completely against Abonim; she was not one with him. All the lies of these frauds are exposed. Everything is crumbling because they sought for position, power, authority, money. They abandoned Christ so they will be ruined. They cannot last long. The frauds will stab each other, steal from each other.

No matter what they said, world war has come. How will they stop Russia? How will they stop China? If we could have used Abonim’s foundation from 10 years ago including the conservatives of America and had supported Trump centering on the Washington Times, think about it, if we had done that this situation would never have happened. But the frauds wanted money, position, power. Abonim’s choice wasn’t to support them. They sought money, position, power, like HJH, so they go the way of doom, the way of destruction. They can’t win.

With that kind of content, beginning from the Tokyo and Kyushu rallies, they entered the event of another church and tried to obstruct it, saying “Hyung Jin Nim, please stop it, please stop it.” Coming into the venue. For 10 years they held many rallies, but not one of our Sanctuary Church members ever went to their event and caused a commotion. They are completely acting as a fraudulent organization. They made teams. One team stands up and makes a disturbance shouting, “Stop it, stop it!” and a second team takes a video of it. Then 15 minutes later, another team shouts, “Stop it! Stop it!” and the other team makes a video. They act like kindergarten kids, complete frauds acting like kids. Because they do that, other people who came with them decided, “Oh, from now on, I am going to return to Abonim’s authority.” That is what is happening. (Applause)

That’s why I told them, “Don’t you know what’s going to happen? If you act so foolishly like kindergarten kids, it will all appear on the Internet.” They live by fraud so they will be destroyed.

So, in this time of real crisis in Japan, in the world, where an evil act was done in assassinating a hero, Prime Minister Abe, that was an evil act. The real truth is gradually coming out now in the Korean media. No matter what lies the Family fraud tells, it’s already coming out.

*(End of translation from H2fanclub blog. The remainder is from the video [2nd King Sapporo speech](#).)*

This is judgement by Abonim. I told them that they aren’t fighting Abonim’s heir, successor, 2<sup>nd</sup> King, but that they are fighting Abonim himself. So, I told them, “You can’t win. Abonim will judge you.” Just like I warned you 10 years ago. During those 10 years, how much cursing and ridicule the Sanctuary members received for following the 2<sup>nd</sup> King who wears a bullet crown.

But you aren’t seeking money, position, you didn’t betray Christ, that’s a great victory! That’s the greatest victory! (Applause) Abonim already is victorious. They will be destroyed by their falsehood. So, when you know the Principle, you know that when God works in His providence, He always starts from a small number, starts from something small. You don’t have anything, but you love Abonim, you did not abandon him. You loved Abonim more than money and position, no matter how much you were opposed and criticized. Abonim is the victorious Abonim; he is the substantial Returning Christ, the Lord of the Second Advent, even if world

judgement comes as we said 10 years ago. However, HJH's prophesies from 10 years ago were all wrong. She said she would do better than Abonim, but those words were 100% wrong, the world instead is being destroyed.

Abonim is establishing God's Kingdom. As it says in Matthew 5, those who are poor, those who hunger and thirst, those who were ignored by the elites, God is building His Kingdom through those people. Why? They don't have expensive cars like the super elite and can't even ride an airplane but they have love; love for God and love for their neighbors - on that foundation. It's not the fraudulent foundation, not the foundation made by stolen money. No. Love God and love your neighbor, even if everything in the world is lost and we are cursed by the world, God's Kingdom can be built by that righteous heart and courage. God is good. God is righteous and good. Abonim is not dead, he is the living Christ, the living Lord, the returning Christ, the Lord of the Second Advent! He is alive! Halleluiah! Halleluiah! If you build God's Kingdom by that love and that power, you don't need anything else. Only by that love.

During these 7 years if you listened to and followed these words and trained and prepared with your town, you could explain to your neighbors why the world has worsened and that we have hope even if judgement comes. (You can explain that) this is Heaven's constitution, this is the Divine Principle, the founder Rev. Moon is the returning Christ, the Three Generation Kingship has established the unfallen lineage, this is the Kingdom of Heaven. We have hope even if world judgement comes.

Those who are frauds seeking money and position, who abandon Abonim are the same as if they had nothing. When judgement comes, they will suffer and end up miserable. However, those who don't abandon Abonim, even if they don't have anything, will become the center of the nation and the center of the world, even though they aren't perfect. Even if they are not smart, even if they don't have money, it doesn't matter, because they have love. With that love they prepared together with their neighbors, even though they received no praise and were even opposed. Weren't you told for 10 years that you believed crazy things? They said you believed crazy things, but now world war is happening.

All their lies are being exposed. Therefore, in this time of judgement we make relationship with neighbors and family and help them prepare, practice using ham radio and unite the town. Love God and love your neighbor, do BBQ, use ham radios, ride motorcycles, you are brothers and sisters. Young couples become Blessed couples, invest in each other, husband and wife do date training and when children are born, one-on-one training.

When world war comes, everyone loses material, but what remains is strong spouse relationship, strong children relationship remains. That is important, you need to invest in that. I told Sanctuary members for 10 years to do spousal training together, invest in spousal relationship. The more difficult the world becomes, we lose the convenient things we depend on, like the police, fire fighters, the ambulance won't come when called. The world becomes more and more disrupted. Gasoline and electricity costs are going up. Countries fight each other, they will destroy each other's power plants. It will become like the dystopian movies. At that time, only

the community will remain, only human relationships remain. Think about it. What happens if there is no electricity in your house?

With one nuclear bomb Russia can stop the electricity in all Europe. Suddenly, several 10's of millions of people won't have electricity. What happens when the refrigerator doesn't work? Your food will spoil, if you haven't prepared a solar panel system. If you lose electricity from nuclear war, you can't use your car, electronics, Internet, telephone. That's why I said you need to print out your photos. You won't even be able to see your family photos without electricity. No telephone.

Now in Ukraine they can't use the Internet because of war. You need to prepare, otherwise it will be too late when that happens. But Sanctuary Church members are better prepared than normal citizens because I told them from 7 years ago. The problem is that when people prepare, they worry about the future and have stress. But you shouldn't fear, especially women. You prepare, but don't fall into that fear and stress. Always remember that through judgement God's Kingdom will come. Always. So, you prepare, but control your stress.

Also, spousal love, invest in your relationship. Relationship with children, especially young couples. Do you understand? As the world becomes more disturbed, that becomes your wealth. One day, people will wake up and find they can't use the Internet, they can't phone, the light doesn't go on. They think that in one or two hours it will turn on again.

In Hokkaido it is cold, right? What happens if there is no electricity? You can burn wood. That's great. People who don't have that don't know. We know how important that is in Pennsylvania. We need a large pile of firewood to survive winter. Also, if you can't farm, what happens? Supermarkets only have 3 or 4 days' supply of food. If an emergency happens in one day all the food will be gone. Under corona you saw the empty shelves.

Japan is a rich country, but in an instant, it becomes an underdeveloped country. That happened in America. Think about it, no water, no electricity, the car doesn't work, no phone, no Internet, the refrigerator doesn't work, the toilet doesn't work. There is no water because the pump doesn't work. The general populace really lacks preparation. We still have 5% responsibility.

The world war still is not on the world level, so we can still prepare. What I said 7 years ago. You can prepare some more. Even if there is no electricity, no water, no refrigerator, the meat rots, there is no air conditioning, no heater. Those in Ukraine thought their cafe and shopping mall would always be there, but all of a sudden, the bombs fell, next the tanks came, and the next day there was no electricity. They said "if you don't follow us, you can't have water to drink."

When this situation occurs, the wise citizens would have prepared for the future and trained. Young people are also doing martial arts. Through that, citizens that prepared can survive the emergency. If start preparing from when China attacks Taiwan, it's too late. We told all SC that world judgement will come from the cosmic fall of HJH. That time has now come. We prepared and prayed for the nation and for each other. We created relationship with the neighbors, training together, doing BBQ together, riding motorbikes together, with the heart to love people,

strengthening human relationship so that when such a time comes, we can help each other and survive together.

All Kings and Priests need to train them well. When there is an emergency, there will be many that didn't prepare anything who will come and say "I didn't prepare, please help me." You can't help the entire nation from one household. You need to know how your town system is. You can't act emotionally. Always protect and control that resource. Make teams with responsible neighbors that you can trust, become friends with neighbors who understand this reality.

When China threatens, study together how communism destroyed the nations. People should not each live separately. Of course, you each live in your own homes, but you need to know about the whole town, whom you can trust, create a network with those people. Those who create that network in the town can overcome when difficult times arrive.

When the corona fraud came to the world, the SC members were prepared and didn't panic. We had a farming system and could overcome that. Three years ago, I said that things would get worse because of the judgement from HJH's fall. The current situation in Europe is that we could enter into a nuclear war. China is the same. Don't be ignorant in this situation. Have the heart of peace police and love God and love your neighbor. Prepare yourself, give a sense of responsibility to others so they can prepare themselves. You can't do it by yourself. Create a sense of responsibility in others and help them to prepare. Create relationships with those neighbors who are preparing, support each other and with that heart of love to protect the whole town.

This crown that the frauds hate the most is not a golden crown but a bullet crown. Why? It signifies family safety, community safety, national safety. Japan has the strictest gun laws, but even in that situation a crazy guy made his own gun. What that means is that you can't control guns by law. All the citizens need to have guns, not just the bad people. All citizens can protect their home, their family with guns.

We SC members are not many in number, and you are not billionaires but when you go to the supermarket, buy extra and save canned foods, things that last a long time. If you did that during 7 years, it becomes a large quantity. American members are doing that and have stored a lot of food. Little by little, during 7 years, buying two or three extra things every time they went shopping. But if you haven't done that, you can start now. Every time you go to the supermarket, buy two or three extra things that last a long time and store them.

When there is a crisis, the supermarkets will be closed. So, you need to prepare. Some people prepared a lot during 7 years, some didn't prepare at all. That is each one's responsibility. You all heard the same words. It's almost too late now. You need to create that habit to stock up even with canned food you can survive and your children can survive. Two or three people can survive, you can't save everyone. Teach a sense of responsibility to your neighbors and prepare together with one heart. Do you understand?

Even if there are not a lot of people, having no money is no problem, if you have love. If you just have love you can start. If only you have love, you can prepare. Your family and the neighbor

families will become a big foundation. We did that in Pennsylvania and Tennessee. We informed all the Christians. Those who prepare ahead of time and take responsibility will become leaders at the time of emergency. Those who didn't prepare, in an emergency, can only collapse. Do you understand?

You have love, so buy one or two extra things every time you shop. Not just for yourselves but for those you love, your neighbors. Build relationships with those who are preparing. That's the real power of the town. Frauds and communists always try to divide people, putting on a mask and making people fear each other. That's communist ideology.

You can do BBQ together, ride motorcycles together, do sports and martial arts together. That town will become strong. Do ham radio training and go camping together. When a crisis comes, everyone will want to live in that town. Those towns where families are all divided and don't even talk with each, wearing masks and are afraid of each other will be destroyed when a crisis comes.

The Tennessee team and Pennsylvania team, through the working of the Holy Spirit, opened many roads. The veterans and Christians became our brothers and sisters. We also explained to them and taught them to be prepared, sharing information with each other, becoming brothers and sister. That town becomes one team. How important is that? Even if you don't have money, if you have people, you can make the town live by love. Help the people of the town to prepare. You should always remember what time we are living in. World war is reality. That is bad news, but help all the citizens to prepare, teach them, plant in them a heart of responsibility. Where does that start from? It starts from God's sons and daughters, the microcosmos. Why? Because I taught you already, from 7 years ago, I told you. You knew that. This is not anything new.

"Community" is a word that the communists like; they always create leftist communities, but we create a community of freedom and responsibility. When God asked Cain if he had killed Abel, Cain said, "Am I my brother's keeper?" Cain should have had repented to God and said, "I should have properly protected my younger brother." It is the same in your town, those who become the center of that town are those who think and prepare for the future, who love others. It is not in order to have power. Prepare before the crisis comes so that they can survive and you can survive. Prepare beforehand and make people aware of that. Every time you shop, buy something extra. That training should become interesting. When you return home, you see all the canned foods you have stocked up. (Applause)

In this way you protect each other. Young people can do martial arts training, set up an alarm system. You know why you need dogs, right? Small dogs are an alarm without electricity, large dogs are guard dogs. The veterans in America taught me this. Of course, in American we have guns, but the alarm system is something else. When there is no electricity, the alarms won't work, but a small dog is still alive and it still works. A long time ago, the "bushi" (Japanese warriors) often had dogs with them because they protect their owner. Small dogs are alarms and large dogs are guard dogs.

Use wisdom and strengthen yourself and be an example. Then teach others how you prepared. The whole world is in this difficult era of World War Three. Not just Japan, Korea and America,

but everyone in the whole world who are intelligent should prepare. You may not be able to prepare food for the whole nation, but you can prepare food for responsible people. You can't prepare food for the whole town, but give the town's people a sense of responsibility. Explain the time we are in, explain the necessity, in order to do that, become friends with your neighbors by doing BBQ, riding bikes, showing your faces to each other. How important this is. All citizens should prepare.

Look at Ukraine those who didn't prepare were destroyed. Those who fled to countryside increased their chance of survival. When you see the history of war, 30% of the people prepared before the enemy came. Only 30% are wise, the remaining 70% are slow, unprepared. If they don't see others preparing, they think they are OK and don't prepare. Those are the 70%, but SC members should all be the 30%. Don't be in the 70% ignorant people. Things are now worsening more quickly.

7 years ago, we told HJH that if she betrays Abonim judgment will come. She laughed at us; the Family frauds laughed. They told Abonim's heir, representative body, successor to die. However, instead, the veterans and Christians became our friends. The American gun owners became our brothers and sisters. Abonim sent the Holy Spirit and helped those who love Abonim to return to his authority. You are part of that chosen group. It doesn't matter that the numbers are small. Jesus only had 12. When I looked here at the Hokkaido members, I thought they were few, but there are much more than 12. (Applause) Numbers don't matter.

If the general populace only seeks after money and power, they can never establish a civilization. Living like animals, the whore of Babylon, those who helped the fraud went after money and power, like animals. Those who went beyond that seek after Christ, the Only Begotten Son of God, the Returning Lord. I told them at the first rally that the more they lie the more they will fail.

SC members receive Abonim's love. We believe in Abonim and trained with the Three Generation Kingship. We prepared and gave power to neighbors and a sense of responsibility, with a heart of love. Then even if the nation falls into chaos, that town will be strong. You are Abel is that town and can naturally tell them Abonim's story, Abonim's words.

Training is very important. Receive Abonim's love, next train with those who have a sense of responsibility, strengthen the whole town and based on that relationship give love and teach them Abonim, Christ's story and give them the gospel of salvation. They will ask us why did we prepare, why do we know so much about the world and why do we have hope when the world is getting worse. Only those who know Christ can share that content. The others don't know Christ don't have hope when World War occurs. They don't understand the promise of God's Kingdom.

The worse things get, those who believe in Christ have courage and can overcome that. Why? Because they have the promise of God. You are Abel spiritually. Abel is standing, so through the Three Generation Kingship you are kings and priests. You were appointed as kings and evangelists so as Abel pray more than anyone else and give power to the town's people and a sense of responsibility so you can prepare together. Do you understand? (Applause)

Those who know this can naturally share with everyone the words of Christ's salvation, the CIG constitution. Why? Because you can give love and power to them. Isn't that mysterious? That's most important.

Hokkaido members who have received Abonim's Holy Spirit raise your hands. Today you will help us. Pray for the others who will receive the HS. Those who haven't received the HS are the center today. When you receive the HS, die to yourself and rise up with Christ. All the idols in our hearts. You probably heard many times, but some have money, power, position on their heart, who are attending to that more than to Christ. Others have fear, stress more than Christ. Especially among women that is common. Whatever is not of Christ, remove it from your heart, remove your sin.

What is the center of the HS worship? Repentance. It doesn't mean confessing 10 or more things I did wrong. That's not it. Why? When you say "I committed 10 sins yesterday." God already knows that person did 10,000 sins. God see everything. Confessing your 10 sins and then thinking you did well is not repentance. But during that time God has seen 10,000 sins. Repentance is not a confession game but a change of heart. All the things that were at the center of your heart, money, power, position, fear, worry kill them, throw them away and rise up with Christ. That's repentance.

Japanese understanding of repentance in Buddhism and Confucianism is different from repentance centered on Christ. It's completely different. You should receive it with that heart. Don't do it because your parents tell you to. I will not give the HS to that person. This is not something you do because of your parents. Repentance before God is not a religious ceremony. God sees all of that. Don't be a fraud. It's not a religious show. It's not something you do to later make a report. You have to kill what you were following that was not centered on Abonim and have a heart of repentance to want to return to Abonim. Do you understand? You should have a pure heart, do not do it because other people are watching. Don't do it because your mother told you to do it. That is false. Repentance is not something you can do because your mother sent you here. You need to come with a heart of wanting to repent. It's a problem of heart.

When you have that type of heart when you pray, after receiving the HS, some people have a surprising experience, they may go back and forth to the spirit world. Some people get paralyzed and can't move for hours. That happened in Tokyo and a woman was so surprised she went to the doctor. She received Abonim's grace. You don't know who will receive the grace.

Have a heart to want to repent before Abonim. It's not about confessing your mistakes, but getting rid of yourself and have Abonim dwell in your heart. "Abonim, please dwell in my heart." Repentance is not private, but a public deed. No one knows how Abonim may work with a person who has that heart. Sometimes a person becomes completely paralyzed, others are visited by Father in a vision. All kinds of things happen. Some may be healed spiritually.

Remember the first Christian who was witnessed to in Pennsylvania? He was a Chief. He was the first person witnessed to. Before he was prayed for, he brought a doctor's diagnosis showing he had cancer. After prayer, he went to the doctor, he had no cancer. He was the first Christian who was witnessed to in PA. Why did God cure him? He did not cure other people. You don't

know God's thinking. I am not God either. We can't ask God to heal us. That is something God decides. We don't decide.

Some sick people come wanting to receive healing. Sometimes Abonim heals them sometimes he doesn't. Abonim's Holy Spirit decides, you don't decide. I can't decide either. The 2<sup>nd</sup> King 3<sup>rd</sup> King can't decide that. I am only Abonim's hands and feet. Abonim decides. If you receive grace say "Thank you Abonim." Do not say "thank you" to the 2<sup>nd</sup> king or 3<sup>rd</sup> king. For everything say "Abonim, thank you." For everything.

As Abonim's heir, successor, representative body we are his hands and feet. It's Abonim's Holy Spirit. That's why you need to open your heart. You can't say that I want this or that. The opposite may happen to that person. That person's disease may become worse. Why? You are not God, maybe there is something you need to learn. It all depends on Abonim's Holy Spirit. Do you understand?

Please prepare the room. Those who received the HS pray together and those who didn't, come to the front. Those who have crowns raise them above your heads. Those who don't have crowns raise both your hands as if you had a crown. Repentance is not to confess my sins, but to receive the Lord in my heart.

*(Reading of Repentance Text)*

Close your eyes and prayerfully sing together Ok Mansei, Abonim's song.

### **Final prayer report by Mrs. Erikawa:**

Aboji Kamsahamnida. We have welcomed True Father here in Hokkaido after 30 years and through the 2<sup>nd</sup> King and 3<sup>rd</sup> King we are connected in this way in a straight line to Christ. Japan, as Mother nation, has received the command to fulfill a great responsibility for True Parents and for the 3 Generation Kingship. We are deeply grateful to have received this working of the Holy Spirit. We repent for the many self-centered minds we have had. From now on, when we wake in the morning, we say "Aboji, kamsahamnida." When we step out (from our house): "Aboji kamsahamnida." Whatever we do: "Aboji, kamsahamnida." At night, also: "Aboji, kamsahamnida." We will spend every day, every moment with True Parents, with the 3 Generation Kingship, so Heavenly Father, please forgive us of all our self-centered sins. Heavenly Father, we ask you from our hearts to please guide us and allow the people of Hokkaido and northeastern Japan to receive the working of the Holy Spirit to restore Japan, as the Mother nation, to become a country that serves Asia and the world. We were in difficult circumstances, but we will become one in heart with absolute faith, absolute love and absolute obedience. Heavenly Father, please guide us and protect us so that we can head straight forward on this path. You sent the Holy Spirit to us. We return all glory to Heaven. Aboji Kamsahamnida.  
*(Ending in Korean) Aju.*
