Judgement of the Lord

2022. 12. 25, CP-TN, Christmas Service

Thank you, King Gregg. God bless you everybody! Merry Christmas! Praise God! Young people had a good time yesterday; they had some fun games. Let's give it up to Victor Moon for organizing that! (*Applause*) Sorry, we had to pull out early; we have a service so we had to get ready for the next day. Merry Christmas, everybody!

Everybody knows it's not the actual birthday of Jesus; this is when the Christians had to hide their belief in Jesus so they wouldn't be killed. This is the winter solstice. The pagans were worshiping Mithras and all that, and if the Christians did not worship the Roman deities they would be killed, so they would hide. They did this in Japan as well where you'd be killed if you worshiped Christ. A lot of samurais were Christians and they would have hidden crosses on their swords, or they would have a Buddha up there but it was actually Jesus, etc. Those are actual historical artifacts that still exist.

The Victory of the Only-Begotten Son

Christians have always been persecuted; always, always been persecuted. Jesus' story is the incredible victory of an innocent man. And not only is he an innocent man, not only is he perfectly innocent; he has no sin, he's perfectly innocent, and yet all of his ethnic people, Israel, plus all the people that live during that time sell him out and demand for him to be killed. He's an innocent man, by the way. It's really the nightmare of nightmares; it's all the terrible nightmares combined together. The most innocent man who is without any sin is condemned to death by all these sinners, and of course, all the enemies. And not only that but his own people, his own ethnicity, his own race sell him out. Not to honor him as God intended but to stomp on

his head, to kill him and whip him and mock him with a crown of thorns, and all this kind of thing.

And he goes through that path of suffering and sacrifice and through all this hate. The innocent man happens to be not just an innocent man but he happens to be God's son, the Only-Begotten Son. That means he is God's substantial body on earth; he is literally God on earth. This is what the people did to God the Father! And he goes that path, he goes to death; he goes to the Cross which was the capital punishment. It's torturous and you basically die by suffocation because of the swelling of your lungs and the liquid that builds up in them. And the innocent man who was the son of God, he dies in an agonizing, brutal slow death, and he perishes.

He perishes and people think it's all over. The Romans and the Jews they think their problem is gone, but then on the THIRD DAY! Hallelujah! Jesus rises again. Victory over death! (*Applause*) For the innocent man who's the Son of God, victory over death, victory over condemnation, victory over all the attacks of the devil. He rises and he reigns victoriously.

It's that power folks, that has always allowed the Christians or the body of Christ to withstand, and fight against evil. First, to discern between good and evil because even in the story of Christ you have to discern who the good guy is. A lot of the fools did not discern who the good guy was; the Jews did not discern, the Romans did not discern, the people of his time did not discern.

We're called back to that story to remember "*which character am I?*" We always want to believe we're the disciples, but many times we WERE the ones calling for Christ's death; in fact, probably all of us at some point. In that incredible story Christians and Christ's followers throughout the ages have garnered the spiritual power to withstand the enemies' attacks, the mockery. Did Jesus say, "*Pick up your pina colada and follow me to the golf club?*" NO! He says, "*Pick up your cross and follow me!*" What does that mean? "*You'd better be ready to die! Be ready to be mocked, scorned, killed for my namesake.*" That's what he says.

In the early period the Christians were known as an EXTREMIST cult, so they were not allowed to worship; they were banned because they were "SO extreme." The people who stood with Christ had to withhold persecution, mockery, killing. That's what the catacombs were about; for hundreds of years Christians had to be running away. Why?

Because Satan knows; he knows the truth. The Bible says that even the demons recognize God. People say, "*Oh you know, the demons don't know; they don't believe in God.*" No, they believe; they know God exists. The devils and demons, they know God exists; they rebelled against Him and they hate Him. They know He exists; they're not atheists. It's funny; the demons are not atheist! [*Laughing*] Isn't funny? The demons are not atheists. They actually know God exists; they just don't believe in Him, but they know that He exists; they know there's a Deity. Isn't that interesting?

This is an incredible Christmas time story, of the power of Christ and the defeating of death, the defeating of the grave; all the things that we are truly afraid of. Fear of the future, fear of death, fear of mockery, fear of scorn, fear of people hating us, fear of receiving condemnation from people. Going along with the crowd is what people want to usually do; they want to usually go along with the crowd, they usually want to just go the easy route, not ruffle any feathers.

Good vs. Evil

Of course, this is not Christianity, this is not the body of Christ; never has been. Only in the modern days are they trying to merge in with the wokeism and the political Satanism of the day. But historically, Christianity has always been a direct challenge to political Satanism, and real Satanism of course; which has usually been manifested through political bodies in the form of political Satanism, socialism, communism, totalitarianism etc. - all the same among a sliding spectrum of political Satanism.

People have always been against and had to stand up against it because we don't serve the state; we serve God, and so did Jesus. Jesus didn't serve the state; he didn't bow down to Pontius Pilate, he didn't bow down to the Roman Emperor, he didn't bow down to the powers of the world. He showed the actual example; he stood up and was willing to die and be crucified and receive capital punishment AS an innocent man.

Now, of course free will was involved; a lot of people failed their portion of responsibility. Different figures could have stopped the process as it was escalating. John the Baptist of course should have been proclaiming Jesus strongly and powerfully and saying, "*The Lord is here.*" He should have been going hard on that and using the big platform which he had. He was like a social media giant; he was like a Trump or something. He was a very powerful figure, and he should have used that platform. He should have said, "*Go Jesus, Jesus! Make ways for Jesus, make places for him to speak.*" He should have stood by his side, proclaiming, "*This is the One!*" He could have used his power, his social influence, his political power, the religious and spiritual powers that God had given him to testify on Jesus' behalf.

So, this story is truly a story about good and evil, that there is good and evil; there's no relativism where you make your own truth, you make your own good, you just do what you feel like. No! That's how you go to hell. You have to DISCERN between good and evil; you must know the difference between good and evil and there are serious consequences if you choose wrong. If you choose to go along with the masses, if you choose to go along with what is popular, if you choose to go along with what how people pressure you in. There are serious consequences to that; decisions actually matter.

And a God of love MUST hold you accountable because if He is love He must punish evil; He MUST, because in love there is justice. There is justice for those who try to destroy love or exploit it. There is a division. Jesus said, "*I come not to bring peace but to bring the sword,*" to bring

division between good and evil. The Divine principle talks about a separation between good and evil; not this relativist junk, *"God is love so He loves everything. He loves everything including the behavior of the LGBT, the pedophiles, the trans; all that, He loves it all."* This is why wokeism has killed Christianity; it has killed the ability for the body of Christ to discern between good and evil. And if you cannot discern between good and evil, you're going to mistake your daddy and you're going to follow the wrong daddy which is Satan. You're going to follow the Harlot who will lead you to Satan, her adulterous pimp; she will lead you to him.

So, discernment is very important. Who is able to discern at a critical moment in history determines the fate of that entire tribe. And yes, there was the big failure of the larger tribe, but through providential restoration history God will use the small remnant who chooses correctly. Always God will work through the small group to go the straight and narrow path, because usually people want to be popular and they don't want to be hated by their neighbors and friends etc. They want to take the easy route; they don't want to do anything to ruffle feathers.

Those people may not support the evil of the day, but they will stand idly by; they will stand quiet. And standing idly by just like with the Nazis, you then become complicit because you do not stand up for the children or the Jews in that case. You didn't stand; it wasn't popular and you didn't want to receive the hatred and the scorn etc. So, by choosing that route, what happened? For example, in Germany the whole nation died; the whole nation became condemned. The whole nation became complicit in the massacre of thirty million people. This happens everywhere throughout history; people don't have spiritual discernment. First, you have to be able to discern between good and evil, and then of course you have to have the courage to stand up for what is right. The Bible says, *"STAND up against unrighteousness; JUDGE a righteous judgment."*

It's interesting how the Lefties and the fake woke Christians always say, *'Judge not lest you be judged.'* Did you read the rest of the dang verse, you mindless, gutless people twisting God's Word? He doesn't just say, *"1-Judge not, that ye be not judged."* He says, *"2- For with what judgment ye judge, ye shall be judged"* (Matthew 7: 1-2). So, if you judge unrighteously, yes you will be judged unrighteously, but if you judge righteously, you will also be judged righteously, meaning people will eventually acknowledge and thank you for what you've done.

The story of Christ is interesting; it's the power of the victory over death and persecution. Think about it! These are all the things that people fear and dread the most. You dread being hated by everybody; you dread being mocked by everybody; you dread being scorned by everybody; you dread being unpopular.

Died Suddenly

Just look at what happened with the covid lunacy; how CRAZED people became just believing the "experts!" How evil and wicked and unscientific and cultish they became, condemning you

if you didn't get the jab. By the way you know what's happening now with the people who got the jab, right? There's a 40% increase in death mortality worldwide from ages 18 to 64. If you saw the movie *Died Suddenly*, <https://diedsuddenly.info/> you saw what happened with the people who got the death jab. I remember I was preaching about this, saying, *"Don't trust the state, don't trust these experts."* Why? Because we know history; we know what communism does; we know what centralized government does. We showed the top doctors Dr McCullough and Dr Malone who actually made the dang mRNA vaccine warning, *"Don't take it! There's not enough research, not enough testing."*

In *Died Suddenly*, you saw people dying. Basically, the spike protein filaments are starting to gather over time and create MASSIVE blockages in the main arteries. They wanted to interview expert embalmers, the people who do embalming of the bodies and they got permission from the families to do the autopsies in front of the camera. Their relative died suddenly and the embalmer was saying, *"Let me guess! It's probably going to be this..."* He says it before he does it. He goes in, makes small incisions, especially in the Carotid artery which is one of the biggest arteries in your neck, and he pulls out a giant serpent basically from the neck; it's a giant two-foot-long protein that has now completely blocked it. It looks like a snake coming out. He just keeps tugging and pulling. Have you seen it? He keeps pulling and pulling and it keeps coming up; it keeps just sliding out like a bloody snake. He has a catalog of how many people he's done this to since 2021.

At the same time, they heavily pushed for the vaccine. It was the first time that multiple professional embalmers were in a documentary and they all said, *"Yeah, we saw a giant spike from 2021. All these people are dying and this crazy stuff comes out of their arteries."* They're dissecting it, and it looks like these long filaments that all mesh like spiral together and basically when they're pulling them out; they look like a serpent, like a worm coming out of the neck. But that's what's happening to these people who took the jab; they have massive clotting.

In the movie there's one patient, a gentleman whose whole leg is starting to swell; all these veins are popping out of his face and he's saying

--"I don't know what happened."

--"Oh well, did you get the ...?" Oh yes, he did!

Unbelievable! This is going to kill MILLIONS and millions of people! Of course, it's done over time, the longer you have it in your bloodstream, because the spike protein is being replicated; you cannot get it out of your system, especially if you've got up to the fourth jab. But again, that's why the experts like Dr McCullough and Dr Robert Malone were banned off Twitter and YouTube for telling people the truth. Now, you have all these good intentioned liberal lunatic brain-dead so-called intelligent numb skulls going up there now crying about how their daughter died or their son died, how their husband died, their wife died.

Well, why did you listen to the pathological liars? Why did you listen? Why did you TRUST when actual doctors were being banned? Why didn't you say, *"Wait a minute! Isn't it kind of strange? The actual people who created the mRNA are being banned because they're saying to not take*

it?" Pfizer can't be sued; none of the pharmaceuticals can be sued and they're making hundreds of billions of dollars off of this. There's NO profit motive however, right? They're all angels. They would never have a profit motive; they would never want money and yachts and Lamborghinis; NEVER, NEVER. No! They wear a white coat so they're TOTALLY pure! See, people have no discernment. Foolish!

What's happening now at alarming rate? They have CCTV which is a close circuit TV at different food establishments and other places, where people just keel over and die. Essentially, they do what's called "the spiral dance of death." Since their arteries clog, they die; they drop but they spin. I guess one side gets blocked more than the other, so they twist in that direction and they spin, twist, and boom! They keel over and die! It's crazy. They show back-to-back across the world, how these people die suddenly. They now call it the "Sudden Death Syndrome" - which we never had before, by the way. We never had a Sudden Death Syndrome especially with 20-30-year-old people, and also with professional athletes who are the healthiest in all our civilization, keeling over and dying in what they call "the dance of death."

Of course, you know the Satanists are applauding. They're happy seeing these people die, these "useless eaters", because they want a low population that they can control and to have the whole world for themselves. They're the super-control freaks that want to use government as their way to try to appease their pathetic and weak fear of the future. Because they don't believe in God; they believe they're God and they have no hope for the future and all they have now is power.

The Han Mother

It's interesting with tyrants; as their foundations crumble, they become more radical and they become more tyrannical. We see this with the Han mother; she became more radical, more tyrannical. These people condemned us to die when we told them the truth. We told the truth because we actually love her, unlike them. She's our mom and we tried to actually stop her from doing this insanity and killing herself, committing suicide on the mass scale basically. Because we actually love her. I'm the youngest son; I spent six months pleading and begging at her waist and holding onto her legs. I'm a grown man but I did that, just to tell her, *"Stop doing this! You're going to KILL yourself! You're going to kill yourself and kill the whole freaking thing."*

Not to mention that it's immoral. You DON'T step on the wishes of your husband who has passed, and he's not just your husband. He is CHRIST! He is the Returning Jesus. You don't step on him; you obey him. You obey him because you love him; but you won't obey him if you don't love him.

Then we had to do the heart-wrenching and painful thing of actually telling people the truth and receiving all the hatred and mockery of the world. Even though I mean, Father clearly chose his successor; I did not choose myself. I can't choose myself; I don't have the authority. I

can't make Father put his crown on my head. I can't order Father, *"Let me wear your robes! Let me wear your kingly robes!"* That's not going down okay folks; that's not happening. And then, *"Oh, and do the ceremony three times across the world."* The same sermon over and over and over again, just in case anybody who's totally a rockhead has not understood, but even a rockhead would be able to realize, *"Hey, maybe Father thinks this son is his successor!"*

Of course, it's the greed of money; money and power truly corrupt people. The Han mother went that course; she started claiming that she was God. Kook J-hyung and I were the only ones telling her, *"Mommy please, don't say that! Mommy, if you do that you're going to be judged. I'm telling you, don't do that, PLEASE!"* By the way when we speak to her, we speak to her with honorifics, so we're really saying, *"Mother please!"* We actually speak to her quite politely. People think we're just bastards or something like that. They're idiot. They don't know anything about us and they condemned us to die, even though we were the ones that were saying, *"No, Mom, don't go against Father; it's not going to be good."*

What was so sad was that when we told the people, everybody was shocked, and everybody condemned us to die; everybody was saying, *"Go jump in a hole; bury yourself and die!"* Which made us tougher by the way; it just made us tougher. Why? Because we didn't steal anything; we didn't take anything. They are the ones who stole Father's inheritance and foundation; we didn't take one penny. So, we had clean conscience.

And of course we're not going to be bought to sell out our Father! Why? Because we actually believe in him! We're not like these little prostitutes that are going along for money. We actually BELIEVE in Father! Father's the one who saved me. When the whole church was condemning me for becoming a Buddhist monk, only Father said, *"I made him study; stop condemning him."* Father was the one that saved me and my faith. He had nothing to do with any of those so-called members of the church; he had nothing to do with them. Father is the one who saved me. They certainly did not, and I don't worship them and I don't serve them. I serve Father.

So, you can't buy me with money; you can't tell me to teach anything that is against Father for money. I don't actually need a lot. I live in a tiny home. People don't understand; we have more space in that tiny home than we had in the big palace. People don't understand this about big palaces. Everybody wants a big palace, but I'm telling you: it's the worst place to live in your life. Trust me; it's the most HELLISH place to live. The space you can actually occupy is very small. You have a room; that's it. Everywhere else there are cameras everywhere, and you're hated by everybody because you're living in a freaking marble palace for Christ's sake, so everybody in town is jealous. You didn't even want this. Anyway, the point is: it's like living in a giant hotel or a museum. You don't have any privacy, you don't have any land, you can't make a garden; you can't go up and rearrange stuff. People don't get it; they don't get it.

We went through that situation; we told people what was true but of course it turned out to be worse than what we said; worse. What we said was actually quite mild compared to what the Han mother herself has revealed about her own theology, about her belief system, about herself

which is clearly utterly blasphemous and heretical. She's already teaching now that she was the one that CHOSE Father out of many candidates because she was the messiah; so, she chose Father out of multiple candidates. She was gracious enough to choose Father! (*Laughing*) This kind of stuff is now starting to come out and bubble out. It's very sad; it's not unexpected. I'm not surprised obviously. I didn't hear this part of her theology, so she does continue to surprise but unfortunately, she is walking that path.

Money & Power

They've lived deliciously on the promised land, and of course ever since then she's been demanding hundreds of millions from her followers, which is basically Japan, because Americans don't donate and Koreans don't donate; if they do it's ridiculously small compared to what the Japanese are put through. The Japanese subsidize 99% of the entire organization.

When we were there under Father's direction after Father installed me as the world president, we shut all the fundraising systems down. We shut down the fundraising that the Kwak group was doing through CARP, making the young people their little slaves to make money off of; making millions PER year, running them through the fundraising system.

By the way I'm the one who shut that down, because these children have no faith; they don't know what they're fundraising for. It's more important that they get their faith solid first, understand what they're doing, and in whom they believe. Do they believe in God? Do they believe in Jesus? Do they believe in Father as the Messiah? These children don't believe anything; they're many times cultural atheists. Yet they still have a good heart and say they want to please their parents or their community; they want to do something good. But then they would be exploited, fundraising for two years straight ten-to-fourteen-hour shifts, in very dangerous neighborhoods where they got a couple of girls raped and killed.

In the Providence Father had already announced the Cheon Il Guk era, so it was no longer the indemnity period; there was no need to continue the indemnity period on people.

But this is the problem with lots of money and this is the problem with centralized government. Once a lot of money starts flowing people get addicted to that money. That's what you see with people who enter politics. They get into the mayor position or whatever the case may be; all of a sudden, they're different because they're now moving tens of millions of dollars. Maybe before that they were just moving a thousand dollars from their bank account; now they're moving hundreds of thousands of dollars of taxpayer money here and there, and they feel so powerful.

You see what I mean? It's a drug. There have been studies done on political power and they say that it's much more addictive than cocaine, much more addictive.

<https://medium.com/in-fitness-and-in-health/more-addictive-than-cocaine-the-shocking-research-on-sugar-addiction-62b4e779c52> I believe sugar is six times more addictive than cocaine, but this is more addictive than sugar. Let's put it that way. People really get addicted to

power. They feel like, *"Wow! Look at all this money!"* And they start feeling that taxes are okay. Taxation by the way is force; if you don't pay taxes men with guns will come and kill you.

Churches can't do that; churches can't tax their people. They can only request support and tithe. There are no SWAT teams coming to parishioners' houses to ask, *"Where's your tithe?"* There are no tithe police; it's your conscience that is doing it.

But the state is different; the state can send armed people to take money from you. If you don't pay your taxes you're arrested. If you rebel against that you'll have a physical altercation; if you try anything that makes the officers frightened for their lives you will be shot dead. They will use weapons against you and kill you. So, everything the state does, every law, every rule is backed up by what? Force. Which means what? You die. That's what it means; it means, *"we're going to kill you; if you don't listen, we'll kill you."* That's what it means. That's what people have to understand about governmental power.

On the Family Fraud Cheongpyeong

(Showing this video) <https://www.youtube.com/watch?v=7Qz8EMZpm0E>

Even just ten years ago they had the Cheon Jeong Gung there in Korea and they've made a lot of different giant buildings in front of the palace. This is one of the reasons why the archangel leaders organized to get Kook J-hyung and me kicked out, even though I was Father's heir and successor and they all saw it and they all pledged that they would follow. They're pathological liars and of course there's no honor in a den of thieves, which is the reason why it's collapsing now.

I mean making idols to yourself, worshiping yourself! And these are the big monsters. This is by CBS News that made a whole expose on them.

But they made quite a bit of extra structures there which are millions and millions of dollars. You can just compare: the major palace is about 400 million dollars and anything under it around that size is

going to be the same price.

The palace was there before, but now they're making these buildings. They're making another Vatican building in the front with the obelisk which is the symbol of the Egyptian Horus' penis. It's the symbol of Satan's penis; that's what an obelisk is.

It's an ancient Egyptian phallic symbol; it comes from Horus' legends and mythology about his sex organ. Which is who? It's Satan; it's Satan's penis. So, they're creating a "sacred space" where Satan's phallus is honored and it's shaped like the Vatican which has become a den of pedophiles.

It's the leadership. The normal Catholic people are wonderful people but terribly misled by the very evil leadership. You can see this kind of giant megastructure. This is where the donations go. Again, by May they have to collect \$180 million or whatever the case may be, and they're pushing the members to donate.

But what happened? What happened? They lived deliciously for ten years they kicked out Father's heir and successor. They got rid of Father's son whom he anointed as Cain who was in charge of all the businesses and who made them all profitable. Then these incompetent pathological lying prostitutes came in and took power, and within ten years the foundation was now destroyed. They laughed, they lived deliciously, they lived very wealthy; they spent lots of money on jewelry and shopping, wonderful meals and fine dining. But all comes to an end; if it's based on deceit it comes to an end.

They dishonored Father They promoted a heretical BLASPHEMOUS ideology where they basically demoted Father from the position of Lord of the Second Advent, which our whole theology has always been based on; the Divine Principle is clear about that. And the Han mother made herself into God, into the savior. Of course, that's Fallen Eve and we called it ten years ago. This is the Fallen Eve theology; this is the Harlot of Babylon theology. This is not godly; it has no place in Christian history; it's completely diverging.

Everybody said, "*Die, die, die!*" to us because we told the truth; we told people what they didn't want to hear. They didn't want to believe it; they wanted the money; they wanted the praise and accolades of other people. They were too lazy to want to do anything about it, "*Hey! Let's just ride this out; we'll just ride this out as long as we can.*" And of course, they thought they could ride it out for decades until they died.

They don't really believe in God anyway, because if you believe in God you can't play like this; if you believe in God you CANNOT play like this because you're going to get justice. God is a JUST God and He's going to punish evil. At some point evil will be punished if He's just. If He's not just, if He's a fool and He's fake, fine okay, then maybe there will not be justice. But if God is just and He loves the poor and He loves the innocent, well then, He will punish the evil and the wicked. Why? Because they've chosen it; they chose the path and He gives them what they want.

They thought they could live deliciously until they died and they could ride their Mercedes-Benzes, Bentleys and Rolls-Royces until the end, and everybody was going to worship them. I mean it's a big joke anyway; it's really about the money. It's all the billions of dollars; they're now in the top elite of the world. It's funny how fast iniquity can fall.

They GUARANTEED that they would be victorious, that God would bless them, but the opposite has happened.

They GUARANTEED that Father's heir would fail miserably.

They GUARANTEED that Kook Jin Nim as the True Cain that Father anointed in Hawaii in that special ceremony, would fail. Of course, his business just went on to become more successful, as our ministry had to start from zero again.

Father's Three Generation Kingship in tents

It was not based on deceit and theft and stealing the inheritance of your own child and stomping on the wishes of your husband who is the Lord. It was not based on that. It was based on protecting Father, not betraying him not being a slut, not being a prostitute, not selling out for praise and accolades and not selling out being scared of people mocking you or hating you telling you to die.

Father's heir and successor, and Father's Three Kingships, which he established on earth, don't live in big palaces, and neither do we want to live in big palaces. We're all nature men; Father raised us in freaking Amazon jungle. I spent every summer there; that's why we're fanatic about nature and training, etc. That's how Father raised us. So, for us even tenting is adventurous; it's fun. We lived here in a tent with all these folks; in tents for over a year over the cold winter. It actually gets pretty cold in Tennessee; yesterday it got down to what? Minus 20 F with wind chill. In Tennessee, that's rare. Last year was not that cold, actually; it didn't get down to minus 20 F. I think yesterday God showing us, *"Look what I could have done to you last year!"*

We were in tents; every day no bathrooms, no running water. It's like living in a Third World country even though you're living in America. You got no running water, you got no bathrooms, you got no showers, you got no shelter; there's no heating and air conditioner (AC). It's like living in a Third World country, like basically living in the bush in the jungle. But what a great adventure! That's why Father always loved it; he never stayed in these kinds of big palaces. We came back for a ceremony and then Father was gone.

On Addiction to Korean Dramas & Nefarious Consequences

Guess who liked the big palaces and the chefs and all the prepared meals and all that? The girls liked it. The girls liked it! Girls get addicted to that kind of power and money; as men like beautiful women, women like money. Why? Because of resources that are necessary for the eggs and the future children; instinctually that's why women pursue resources and men pursue beauty.

But the desire to want comfort started poisoning the Han mother. She got addicted to the Korean dramas which is women pornography. It's a type of woman porn coming from the

romantic desires of women; they created businesses around that psychology, producing films that will entice women romantically. But it teaches them about what? The love triangle which is Satan; it's the Luciferian teaching exposed every time in those stupid romantic dramas. Just like porn for men which creates love triangles between the woman you're with and another woman who's naked on the screen; that's a love triangle. What the romantic dramas do for women is the same thing that porn does. That's why they are more aptly known as women porn.

Of course, women should be SHAMED if they're watching this kind of pornography, just like men should be shamed if they are watching porn. Amen! But also, women should be shamed if they are watching women's pornography which is not actually the explicit stuff; it's the romantic stuff. That's the business that gets them really fanatically addicted to wanting to test out a new lover.

Remember in America there was something called *The Desperate Housewives*? Again, this is all about love triangles. Their husband is out making money and these women who are in their 30s get horny for the grass-cutting guy out there, a 17-year-old buck muscular football player or whatever, and they're having sex with him. This is what that show is about. It's love triangles; it's glorifying adultery, and if you keep watching this what happens? If you keep watching this, you start desiring adultery; adultery seems like it's fun. Everybody's doing it so you think adultery may be fun, *"Hey, my life is boring. I'm here with all this luxury and all this wealth. It's boring! I got chefs cooking my food, I got drivers driving me here and there in BMW and Bentleys. Life is boring. It's the same old shopping, the same old this and that. I need something extra."* You're also being worshiped at the same time, so of course, you kind of think you're God or a god. God doesn't really mean anything to you because you don't struggle, you don't have to go through anything that's hard.

To fill that void of boredom and comfort these people will turn to harlotry; they'll turn to adultery. Adultery looks enticing, it looks fun; *"It looks like it's going to give me excitement; it's going to make me feel ALIVE again."* That's what they all say; even though it's going to kill you and it's going to destroy your LIFE! Don't listen to the conservative wisdom of the Bible; don't listen to that! Just listen to the trendy beautiful heartwarming heart-twisting emotionalized drama pornos that will lure you in. This is the problem.

We've counseled many couples even when we were in Korea. Of course, we condemned men watching porn because it's very dangerous for your marriage, but we also condemned women watching Korean dramas because that's romantic porn. Women are not visually stimulated by sex as men are, but they are romantically desirous of men that can make their hearts SWOON and feel the HIGHS of the emotion and leave them levitating off their feet in lies – that's what it is: lies.

We found a couple where the wife was watching lots of Korean dramas; what was happening to her marriage? 99% of the time what was she doing? She was comparing her husband, her real-life husband to a fake-actor story, saying, *"Well, you never did that for me; you never did this."*

Because this was the only thing that was playing in her head. Such women became so addicted that this is the thing that was playing on and on. They would be going shopping and all of a sudden, they'd be hit with a flood of emotions and start crying because they'd be reminded of a romantic drama that they saw. This is like pornography; it gets SEARED into their brain. Just like men if you're watching porn then all of a sudden you see the naked image of the woman FLASH in your head; it gets SEARED into your memory. Same thing for women with the romantic dramas!

So, we found that in 99% of the cases the wife was very unhappy et cetera, and saying that the husband had all these problems, but when we met the husband, he'd seem like a normal guy who was working, making money for his family. Yes okay, in some cases he may not have been the most religious person or the suavest Casanova-style but he was responsible. We found that many times what happened? The women were addicted to the romantic porn; the drama, the love-triangle type of story is porn, okay. Then what was happening? They were comparing their husband to the adulterers in those stories, particularly the male figure that comes in to SAVE the woman from her boring husband; he comes to save her from her boring responsible conservative husband and then gives her the time of her life. This kind of infatuation grew so heavy in their minds that they would start condemning their husband like, "Why are you so boring? How come we can't do anything fun? How come you never tell me you love me?" All these things would start coming out right after they would get addicted.

These people were getting ADDICTED! You understand folks? They were watching HOURS and HOURS of this porno, and it became an actual sociological epidemic in Asia and also in Japan. Remember, Japanese women were going NUTS!

<https://min.news/en/world/6a19d2216802c28acffa6394453d6b39.html> *(The cheating rate of Japanese housewives is nearly 50%. Husbands are accustomed to it.)*

It actually became a sociological disaster in Japan because the Japanese women got so addicted to Korean dramas that they were leaving their husbands on mass; on mass. You had 60-year-old women leaving their husbands and going to play with male prostitutes. This was an actual sociological epidemic in Japan; the government had to actually address it constantly on TV. Do you understand? I'm not just pulling this out of my hat; this was an ACTUAL social epidemic. Women were getting mass brainwashed to be infatuated with the love triangle. That's Luciferian teaching. Lucifer WAS the third piece of the love triangle. Adam and Eve that's two, Lucifer was the next piece; he was the love triangle. Therefore, anything that teaches that obviously is going to break God's plan for one man one woman. Amen! It's going to break it.

That's why we have to guard our hearts and guard our minds. Men, we should not be looking at naked girls banging on pornos. You've got to guard your heart and guard your mind. You may LIKE watching it but you don't do it because it's destructive. Women too, guard your heart and guard your mind against that love triangle, those romantic dramas. People are not taking their clothes off but they are TEACHING, they're GLORIFYING the SECOND man, the

adulterous lover who frees you from the conservative boring husband; whom they usually paint as a tyrant even though he's out there making the money. He's working his "ashtray" off twenty hours a day to feed the family and he's the bad guy. This became an actual epidemic in Japan for example, an actual problem that the government had to address.

And look at what happened to the Han mother. She got so addicted! This is what's so sad and it's the reality of it; she was watching six hours of this per day, every day. The staff is there recording these in advance; it's like a drug. It would be better if she was outside, if she trained; that's better. But it's more comfortable being inside. It's more comfortable to sit with all the other girls that you're paying, with a little Kleenex box and watch these dramas about "love stories." But they're all about adultery! Every single one, every single one's about adultery! They don't call it that; they call it love. *"You'll find your true love."* This is what they always call it but it's about adultery, it's about not being loyal, it's about comparing, it's about not being grateful for your man, it's about fantasizing about fake actors; it's exactly porno. It's about giving your heart and wanting to be in relationships with these men, whom, if you actually saw in real life, you'd realize they're total bozos and bumps.

The most famous one was *Winter Sonata*; it was a Korean drama, but it got big in Japan. The protagonist was a man who takes his girl away, and he plucks his eyes out to save her because she becomes blind somehow. So, now he plucks his eyes out so he can give her his eyes and give her vision. This was a big one. You understand? That's not a real story; it's complete fantasy, but yet MILLIONS of women DRANK this wine and it was such a crazy phenomenon in Japan. When this actor would go to Japan, he would be mobbed by 60-to-80-year-old women; these grown grandmas would be mobbing him as teenagers do. Oh my gosh! What an incredible delusion!

That stimulated something that they could never see; it had to be that extreme. They can't be grateful that their husband works and is loyal to them; they need something like *"You need to PULL your EYES OUT and GIVE them to me!"* It's so extreme; it's so arrogant and wicked! *"You have to MUTILATE yourself so I can be happy!"*

Well, why don't you just be grateful that he doesn't cheat on you? He actually doesn't. Why don't you be grateful that he's loyal and that he works hard? Instead of counting all the things that he does wrong, why don't you start counting things he does right? That may change your marriage around. Isn't that interesting, folks? The more we focus on *"Oh, why didn't she do that? She didn't do that. He didn't do that. Oh, he didn't do that! Look at this one! Look at that one! It's so much better than mine."* The more you do that, what happens? The more your spouse is going to fade in your EYES, and the more anger and resentment starts accumulating in your heart, because there's no way that spouse can actually fulfill the fantasies that these movies were creating in your heart. No WAY! What are they supposed to do? Chop off all the fingers and the toes and the ankles? How about the knees? You want the knees cut off too? Are you with me folks? There's no way! These are UNREALISTIC expectations.

God doesn't teach that; God teaches totally the opposite. God teaches for the husband to love, for the wife to respect, and to forgive and be patient; *"you shall not covet your neighbor's property nor his wife"* (Deuteronomy 5:21) These are fundamentals to a strong society and marriage; absolutely fundamental!

Background on 1 King Chapter 12

Did we hit our Bible scripture yet? 1 Kings chapter 12. I'll give you a quick rundown. King Solomon has died. Did King Solomon have many wives? Did he have a girl problem? Big girl problem; big, big, big, big, girl problem! The downfall of the kings in the Bible or even in history is women; women are their problem, because all the women want to be with the person with power. That's why historically 39% of males have been able to reproduce and 99% of females have been able to produce; which means what? The women will sleep with 39% of the men. That's what it means. So, every sultan and king etc., had dozens and dozens of wives and concubines. Every culture has had that because of course it's the fallen world.

Solomon had a lot of wives. He has just died in chapter 11. Solomon had tons of wives, tons of women. What did Solomon do? He built the Temple, yes; but what did he do to please those women? Huh? What? He built temples, he built altars to what? Their gods. He wanted to please them. He wanted to say, *"I want to acknowledge your culture."* And he invited their deities Asherah, Moloch, all the baby-killing sex-trafficking prostitution deities; he led them all in because he married these women from pagan areas. Political reasons- sure- but also, he was just probably a horny power-hungry man who could get all the women. If they can get the most beautiful women, most men are going to take it.

So, he started building all these temples to Asherah. Remember? They say Asherah is the goddess of fertility. No! It's the goddess of prostitution, of sex trafficking, not fertility. The goddess Asherah and the goddess cults always lead to the exploitation of women, NOT the protection of them; ALWAYS to their exploitation, always, always, always!

The goddess will always GIVE something that's very special that the male gods cannot give, and what's that? SEX! She will have her priestesses BLESS YOU if you come to her temple. Remember, in the pantheon there's competition; there's competition between the gods and goddesses. One thing that a female goddess can give you that a male god can't give you is sex. Then, in all fertility cults around the world, indefinitely – it's never not the case – you see that the female deities eventually start selling girls. Little children are sold.

We have records of an eight-to ten-year-old girl that was sold by her father in Babylon; there's a receipt in the historical record. We know this was happening in the ancient world and it was quite common. The cultures were so decrepit and so deeply amoral that they thought it was OKAY to sell your children into sex-trafficking; that was okay.

You may ask, *"How could that even happen?"* No, it happens right now in India, it happens right

now in Thailand, it happens right now in the U.S. The U.S has the biggest sex trafficking operation in the world; it's now becoming the sex-trafficking capital of the world.

Craig Sawyer, a Navy SEAL does Veteran for Child Rescue <https://vets4childrescue.org/>
Go donate to his organization; we're supporters of that organization morally and spiritually. Those guys are Special Forces guys; they come back from war and they go hunt the pedos with law enforcement that want to work with them. A lot of times the cops don't want to work with them because they're covering up for some political leaders etc. So, they've been rejected many times in many districts and many bureaus because "shhh! the mayor is in on something or he's into boys - this kind of insanity.

Anyway, Craig teaches the reality of the sex-trafficking industry in America now estimated at one hundred billion dollars. We are now becoming the sex-trafficking hub of the world; people are flying to America to have sex with children. This is what happens when you become a pagan and you stop PUNISHING evil; you start letting the cancer spread rapidly.

So, remember Solomon is now doing this. He's allowing all this temple prostitution; he's building temples etc. and of course Israel is being spiritually destroyed. Okay, he built Solomon's Temple but it's really being destroyed. When he dies what happens? Remember for about one hundred-and-twenty-years Saul, David and Solomon who were the first three kings were able to keep the kingdom together. After Solomon passes you now see the big split happen.

1 Kings 12: 1- 18

12 And Rehoboam went to Shechem: for all Israel were come to Shechem to make him king.

You have Rehoboam and Jeroboam. **Jeroboam** was King Solomon's employee; he worked for King Solomon. He was talented, he was skilled, and politically rose; he was a very skilled leader and he could amass people's support etc. So, you have Jeroboam. Then you have **Rehoboam** who is the first son. That is the only son of Solomon that we know of; there's no mention of the other ones. They're going to install him as king after Solomon, which was the tradition.

² And it came to pass, when Jeroboam the son of Nebat, who was yet in Egypt, heard of it, (for he was fled from the presence of king Solomon, and Jeroboam dwelt in Egypt;)

Solomon was even getting a little nervous about Jeroboam because he was a rising power. At the end of his life Jeroboam was getting a little too big, and Solomon was even worried about him, so he went down to Egypt.

³ That they sent and called him. And Jeroboam and all the congregation of Israel came, and spake unto Rehoboam, saying,

⁴ Thy father made our yoke grievous: now therefore make thou the grievous service of thy father, and his heavy yoke which he put upon us, lighter, and we will serve thee.

⁵ And he said unto them, Depart yet for three days, then come again to me. And the people departed.

⁶ And king Rehoboam consulted with the old men, that stood before Solomon his father while he yet lived, and said, How do ye advise that I may answer this people?

⁷ And they spake unto him, saying, If thou wilt be a servant unto this people this day, and wilt serve them, and answer them, and speak good words to them, then they will be thy servants for ever.

⁸ But he forsook the counsel of the old men, which they had given him, and consulted with the young men that were grown up with him, and which stood before him:

⁹ And he said unto them, What counsel give ye that we may answer this people, who have spoken to me, saying, Make the yoke which thy father did put upon us lighter?

¹⁰ And the young men that were grown up with him spake unto him, saying, Thus shalt thou speak unto this people that spake unto thee, saying, Thy father made our yoke heavy, but make thou it lighter unto us; thus shalt thou say unto them, My little finger shall be thicker than my father's loins.

¹¹ And now whereas my father did lade you with a heavy yoke, I will add to your yoke: my father hath chastised you with whips, but I will chastise you with scorpions.

Notice what's happening here? All the demonic temples that Solomon built over Israel, the people had to pay for these too. This was forced labor by the way; if you don't work and pay your tribute which is also forced labor, you will be killed; it's 100 % totalitarian forced labor. The people come to Rehoboam and say, "Hey! It was getting rough under Solomon with all those wives and all those temples and all this stuff; it was getting a little rough. So, take it easy, okay? Take it easy on us! You're the next king; take it easy on us."

And what does the Bible say? He has two councils: he talks to the old men council and then he talks to the young people council. The old men say, "Hey! Just be light on them and they'll serve you. Just take it easy. Your dad went a little nuts especially with all the Asherah temples and all that. So, take it easy on them." Then he goes to the young people's council who grew up with them and they said, "Those old bums don't know what they're talking about. These people love you; you're this, you're that." Then what does he do? He listens to the young people council. He goes before the people and he says, "My father hath chastised you with whips, but I will chastise you with scorpions. My little finger shall be thicker than my father's loins." Which was the most precious part; it's the family jewels; it's the seed.

¹² So Jeroboam and all the people came to Rehoboam the third day, as the king had appointed, saying, Come to me again the third day.

¹³ And the king answered the people roughly, and forsook the old men's counsel that they gave him;

¹⁴ And spake to them after the counsel of the young men, saying, My father made your yoke heavy, and I will add to your yoke: my father also chastised you with whips, but I will chastise you with scorpions.

¹⁵ Wherefore the king hearkened not unto the people; for the cause was from the LORD, that he might perform his saying, which the LORD spake by Ahijah the Shilonite unto Jeroboam the son of Nebat.

So, he does it and this leads to a civil war. You understand? One wrong move by the central figure, one wrong move, one mistake and a civil war erupts. Why?

16 So when all Israel saw that the king hearkened not unto them, the people answered the king, saying, What portion have we in David? neither have we inheritance in the son of Jesse: to your tents, O Israel: now see to thine own house, David. So Israel departed unto their tents.

They say basically, “F-! David!” They're not even saying, “F-you” to Rehoboam; they're saying, “F- your grandpa!” You understand? That's what they're saying.

17 But as for the children of Israel which dwelt in the cities of Judah, Rehoboam reigned over them.

18 Then king Rehoboam sent Adoram, who was over the tribute; he's the tax collector.

and all Israel stoned him with stones, that he died. They killed that boy! They saw Adoram coming for taxes and they stoned him to death.

Therefore, king Rehoboam made speed to get him up to his chariot, to flee to Jerusalem

That's how furious they were; they were so furious that they stoned him to death, they killed him. And, of course this erupts into a civil war. They get Jeroboam and they say, “We want to follow you.”

Ten of the tribes go north, they set up the Divided Kingdom and Rehoboam is in the south in control of Jerusalem. Then what happens? Rehoboam is in the south, Jeroboam in the North. Rehoboam and Jeroboam sound quite similar, but they're actually quite different names, one is Reho, and one is Jero and they are from different tribes. They're not of the same tribe: Rehoboam in the Southern Kingdom is Solomon's son; the Benjamites and the tribe of Judah stay with him.

All the other tribes go north with Jeroboam. Remember he's not a descendant of David, he is from a different tribe. He's just one of his employees that grew in power; he's like a staffer. He goes up north and ten of the tribes of Israel follow him! Oh my gosh! Wow! Isn't that crazy! And of course, it becomes the Divided Kingdom.

God's Word commands them to gather in Jerusalem for the holy feasts; on different feast days all the MEN have to come to Jerusalem; all the men are called to come to this place. God says, *“All the men you have to get together three times a year.”* In the seventh month was the Feast of Tabernacle.

But in the eighth month Jeroboam up north says, *“Hey, I want to make my own. I'm going to make my own celebration up here. You guys don't need to travel to Jerusalem because that's down in Rehoboam's County. I'm going to make you some altars and you can just stay here.”* He made an altar in Bethel, WAY up north. He built up two altars and what did he put on them? He put GOLDEN CALVES on them.

Notice how dumbed down the people of Israel became about God. They were so dumbed down by the societal cultural values; they became so far from God culturally that they could not DISCERN! Their leader was putting up GOLDEN CALVES on altars saying, *“These are going to replace the altar of Jerusalem.”* Bethel is Beth-EL, which means “the House of the Lord”. “We're

going to make the House of the Lord and it's going to have the golden CALF in there," which is the symbol of the anti-god. It's Baal, and it's also Zeus which is the god of adultery. "We'll put this in the Temple. Everybody just come here and worship; it's going to be called the House of the Lord!" Utter blasphemy! This got you killed in that time period, but the people were so culturally dumbed down, they had become so culturally removed from God because of the surrounding pagan cultures etc., they had LOST their relationship with God, the study of the Word, etc. They actually BOUGHT it! They BOUGHT it, and they believed they could do that; they believed they could worship golden calves and idols in an altar that was called "the House of the Lord!" Oh, my Lord!

And he said, "the seventh month is kind of a rough month okay; let's just make it in the eighth month." But you're not GOD! God chose the seventh month. He said, "Get together for Me on the seventh month," which means you have to get together for Him on the seventh month. It doesn't mean the eighth month! But Jeroboam does that and he says, "No, I want to make it on the eighth month. I make a new one." What is he saying? He's saying he's become God.

This is the beginning of course of the Divided Kingdom and civil war erupts. In this chapter a battle almost erupts but there's a little lull in the battle and they decide not to fight for the time being. Nevertheless, you have this Divided Kingdom and these divided tribes, and in the end the ENTIRE Israel is pulled away; both of them come to their demise.

Is He the Lord?

It's interesting because when the Han mother unfortunately started releasing her heresy and blasphemy into the landscape, we were trying to pray for people and show them the truth, but the constant cognitive dissonance didn't allow people to respond. They wanted to believe that they made the right choice and that they were righteous and moral, but they just went along with what was popular. They chose comfort over what Father had ordered. So, in that scenario some people just fence-sat and some people ATTACKED. Why? Because if you attack, you're getting good graces, you may be promoted.

It's like the new one who's running around in Korea telling people what the Han mother is now saying; he's getting promoted for saying that kind of thing. Even though afterwards the Family Fraud is saying, "No, no, no! He's never been approved to say that." They are backtracking like crazy. Why? We made the prophecy by the way and I told the Han mother

"Mother, if you do this, you're going to be judged." We had to tell her dozens and dozens of times.

But every time she said

"-I am Hana-nim!"

"Omma, no, no! Don't say that! If you say that you will be judged."

"-Hey!" She would react with anger. But we had to do that; we had to tell her,

"Don't do that! Don't go down that way!"

Everybody laughed; everybody said, "Oh, nothing's going to happen with the prophecies that they're uttering. The world is going fine; we got billions of dollars." The Family Fraud is moving and they're inviting Ban Ki-moon who's a communist. He's a socialist communist; he's ideologically a

communist and they're paying him money, inviting him. He's an enemy of True Father and they're paying him money! By the way, they're using Father's foundation to do that, and they're holding their banquets, holding their little events and thinking everything's going fine.

And all the sheep that are following, they are

*forgetting Father,

*forgetting who he is,

*forgetting his authority,

*forgetting his identity.

Who is he? Is he just the peace leader, or is he the Lord? Is he the culmination of all Christian history or is he just some bozo from Korea, with a movement you joined because you wanted to be a hippie or something like that? Give me a break! Which one is it? What do you believe? Of course, it came out that people actually did not believe. The ones who believed, did stand with the Three Kingships when we got mocked, scorned and were being cursed, being chased out. But the ones who didn't believe played the game, *"Let's play it safe."*

World-level Judgment

What happened? We said, *"There's going to be judgment upon the world,"* because we believe who Father is. If we're wrong there's not going to be judgment on the world; if we're all wrong about this and Father's not the Messiah there's not going to be judgment. Okay, fine. I guess we'll all have to do something else then. But if Father is the Messiah, if he is truly the Messiah then there will be a world-level judgment; there will be for this type of heresy and blasphemy and betrayal.

The first couple of years the world seemed fine. Remember we had already announced that there was going to be a twenty-one-year period, so after the seven-year formation course in the wilderness, the first seven-year period, - boom! - the world gets hit with the plague, the China bioweapon Coronavirus. For the first time in human history the entire world gets locked down; the entire freaking WORLD gets locked down. The entire world! The entire world! We're not talking about one church or something like that. No! The whole freaking world for the first time in human HISTORY! The ENTIRE world has never been locked down. Never! You could never lock down the entire thing, but for the first time in human history the entire world was locked down, AND there was a plague, AND there was a death jab which would now kill millions; it would now kill millions.

So, there were plagues, there was economic catastrophe. The Han mother was prophesying that the world would become better under her leadership; that there would be more peace and all the nations would come and worship her as the Messiah as she's claiming to be. Ten years ago, we told her, *"Mommy, please don't do this! You're going to kill yourself. This is going to kill you and it's going to kill everybody who follows you."* And what happened? World level CATASTROPHIC economic collapse! World-level totalitarian lockdowns! That has never, ever happened in human history.

How can I make these things happen, folks? There's no way I can make these things happen. All I did because I believe who True Father is and I saw the level of betrayal and blasphemy; all I said is what I believe, *"If Father is who he is, there's going to be a judgment; if he's not who he is and if the Divine principle is wrong and if we're all wrong, then it's going to be fine."* We're just going to keep rolling on down this hill and it's going to be fine, which is what they were saying.

But then plagues came, and when an economic catastrophe hits the First World, guess who gets hit the hardest? Africa, poor countries, black and brown people get SAVAGELY ravaged into mass death and starvation, which was the case under covid. Any of the economic strife we experience in the First World becoming like Third World, such as supermarkets having nothing in the aisles and this kind of stuff, is normal occurrence in the Third World; if you live in a Third World country you all know this. When that happens to the rich countries, the poor countries which never have food on the shelves anyway, guess how much they starve and die? Tens of millions have died in the last year alone in the Third World due to starvation because of the supply chain crisis, the economic crisis, and the lockdowns.

These are black and brown people that are dying. All these white liberals condemning white supremacy, how come they're not condemning all their lockdowns that have murdered TENS of millions of black people and Africans causing them to die by starvation, their families to die and rot away in little huts. Most of the African countries by the way are communist and/or socialists run.

So, there's catastrophic world failure, catastrophic world economic judgment, catastrophic world totalitarianism rising; we see Satan's systems rising. We don't see God's systems; we see Satan's systems rising. We see WARS erupting. We have two of the major superpowers now escalating war with Russia. Everybody wants to just jump into World War III, I guess; they just want to start throwing those nukes, *"Hey! Let's have a little fun!"* The liberals are all about peace. The liberals always say, *"Love is love"*, and *"love is peace."* Why are you trying to instigate a war with a nuclear power then, you lunatics? You understand what I'm saying folks? So, they're just escalating.

Judgment on the Family Fraud

Then for the first time after ten years, Father's Three Kingdoms go back to Korea and Japan to do a tour and pray for people. Boom! The hammer falls in Japan and now the Family Fraud in Japan is completely destroyed; the entire Japanese government is shutting them down. What will happen then when 99% of the money is gone? Money that the Family Fraud has been acquiring through the sacrifice and the torturing of the Japanese brothers and sisters, and none of that money is funding their operation worldwide which requires about \$300 to 400 million per year. Cheongpyeong alone is a six-million-dollar tab per month. That was when we were there ten years ago; they have now new structures, they have shopping malls, they have cafes and they have a stadium there, so it's probably close to ten million dollars per month. Not year, folks! MONTH! When we were there, it was six million per month, PER MONTH; the hundreds plus staff are included in there as well. You people don't know that but as Father's heir and

successor I know all this stuff. Six million a month and that bill has only grown. All their organizations from Youth Federation to CARP, none of them actually are sustainable; they all receive funding from Japan.

And what happened? For the first time in ten years Father's Kingships visited Japan. Hey, I thought we were nothing, I thought we were a joke, I thought Father's blessing was not on us; I thought you just condemned us to die. We just went to pray for people in Japan, we just went to pray for people in Korea, and tell them the truth; the truth may hurt, yeah, but also tell them that judgment was here. And while we're in Japan, a terrible tragedy happens there. Of course, you all know the story: it's actually one of the Family Fraud kids who are so angry and disgruntled. More of these lunatic kids will come up because Family Fraud is drunk with power and money and they're all incompetent thieves. They don't know how to make money; they don't know how to make value; they only know how to steal it. That's why the old saying goes, *"There is no honor in a den of thieves."*

The only thing holding together those different interest groups in the Family Fraud was the money; but now the money is evaporating. Then all the interest groups will say, *"There's no point in staying around here,"* and you'll see them start bailing. The rats will start jumping off the ship.

Now, of course, they can come to repentance; they can repent and come back under Father's authority. For example, two weeks ago a pretty big minister in Korea, the former vice director of Russia and the Northeastern part of the world repented. He actually persecuted people who came to Sanctuary from his church; he persecuted them for years. He was CONDEMNING them saying all the same stupid stuff they claim, *"Oh, they're a gun cult now; they're a terrorist organization"*; all this crap, just lies. He was condemning them for years, but anyway, he wrote his testimony; it's translated and online. He came to the realization, *"This is wrong; what they're doing is clearly blasphemy. So, I no longer will be a minister."* He actually resigned, came back under Father's authority, received the Blessing and is now doing forty-day separation and later three-day ceremony. Praise God! (*Applause*) He's actually quite a big minister.

This is important. This is just the beginning as the money from Japan has dried out. The Korean church is not used to donating; they're used to receiving subsidies. They're a welfare church. They're not used to giving donations; they're used to demanding *"where is the money?"* February is the time period when they receive the funding and we told you months ago that it is the time when it's really going to start exploding, because they'll realize that the party's over; the living deliciously for your own dishonor and pleasure is over. It doesn't last forever; it doesn't pay.

This is a very important lesson for history too and for all the grandchildren that will be populating the Kingdom of Cheon Il Guk, which is by the way not a totalitarian country like the ones that Family Fraud are wishing for in their own document. Their constitution is of a COMPLETELY communist totalitarian nation. Look at the one that Father's Three Kingships have produced. In 1981 Father prophesied that his heir would write Heaven's Law. You look at the Constitution that had been produced by Father's Three Kingships. The fruit is freedom and responsibility; it's not totalitarianism. The Constitution PROTECTS the citizens' liberty, but also, there's responsibility. For example, there is no centralized police force or military force therefore

the PEOPLE are the Peace Police-Peace Militia. The PEOPLE must love God, love their neighbor, and protect one another; we are each other's security guards and defense. Amen! We do it because the motto of Peace Police-Peace Militia is "*Love God, love your neighbor,*" fulfilling the Commandments.

The point is: all of a sudden that money is evaporating and now the factions are starting to fight heavy; they're actually starting to sell land in Korea as well. When I was in Korea a few months ago I predicted this is what they would do; that as the money dried up, they would start selling asset, selling land. But the more they do that, guess what? The normal lay people are going to get more angry, angry, angry. Why? Because they're not going to get one penny; their leaders are going to steal the last remnants of the money. And those lay people who stayed there to not ruffle feathers or to just go along with it or maybe they thought they'd get some money; they're not going to get a penny. So, a great exodus is going to take place.

In Japan, the entire government is trying to disband the Family Fed, trying to actually make it an illegal organization. People in the West, you guys don't understand how relentless the attack has been on the Family Fed in Japan, but Japanese folks, you know how heavy it is there. NHK, TBS, this is like CNN and CBS in America, every single DAY, ever since we were there five months ago, every DAY, every single DAY, the top news has been slamming the Family Fraud. EVERY day! I mean it's unbelievable; relentless! We get the report every week and they have TV program after TV program; to disband the Family Fraud is literally the top, top, top, priority of the Japanese Congress right now.

We Predicted on Faith

How do you think, if Father is not the Messiah and his heir and successor with nothing makes prophetic utterances and within a short period of time ...? By the way ten years is short. Jesus said, "*The Temple will be rent into half, destroyed.*" It took forty years! That's Christ! It took forty years until Jerusalem actually was taken over! Forty years! So, in history seven years is not long at all; it's like almost immediate through the eyes of all of history. It's a very short period of time. I'm not bragging about it or anything.

The point is: I made those utterances on faith. If Father is who he says he is, then you just can't act anyway you want and get away with it; there's going to be some consequence if he is who he is. If he's not, okay, then we're all wrong and I guess they're just going to play with the billions they stole. But if he is who he is ... because I certainly can't make the whole world flip upside down; none of you in this room can do that. Only God can do that. So, He put us both on public stage: Father's Three Kingships, His lineage saying one thing, and the Han mother proclaiming something totally different, actually the opposite. Which one came true in a matter of seven to ten years? Obviously, Father's Three Kingships; it's His fruit.

What is the fruit of us being persecuted and hated? What did we release? We didn't release totalitarianism for the world. We released the Constitution which is God's Kingdom on earth; it's liberty and responsibility. The government is not your master. Whereas, on the opposite side on the Family Fraud side what did they produce after they stole the inheritance, something that

is not even theirs? They stole for the money, for short-term benefit playing around, living deliciously; the Harlot of Babylon; everything predicted in the Bible. They produced terrifying totalitarianism; it's like North Korea for the whole world. Now, if you're a tyrant, you may consider that as the kingdom of heaven on earth, but I guarantee if you're a citizen, you're going to be trying to find a way to move out quickly. (*Laughing*)

But personally, I don't have the ability to predict the future. No, I just did on faith; I believed on faith that this would happen. I got laughed at, I got mocked like crazy, I got, "*Oh you're unfilial! Jump in a lake, you piece of crap! Die! Etc.*" I got all that crap. I just ate it like a hamburger, and we just continued to press forward in faith. And it's not like we focused on that either; we just continued to preach and continued to try to reach out to the body of Christ. Now we have THOUSANDS of Christian friends and THOUSANDS of people that these naysayers declared we could never witness to, and folks that are from Catholic background, Greek Orthodox background, Protestant background that have joined the family of God and have become Central Blessed Families. That's totally the work of the Holy Spirit! Praise God! (*Applause*) People said, "*We can never witness to these kinds of people.*" All these people are the fruit of the Holy Spirit.!

We had nothing when we left Korea; we didn't steal or take anything. We didn't have billions of dollars to pay speakers and all that. No! We just believed that if God was real, if True Father was truly Christ, if he was the Returning Jesus, then we couldn't betray him in this way and get away with it. No way! We were just in faith; we knew there was going to be a world-level judgment. Now, there is a world-level judgment and it continues forth. It's just the beginning of the growth period so there are going to be pangs through this whole period; there's going to be more pain, more tribulation.

And of course, the Family Fraud is collapsing; no more money, all the factions are splitting. Will they all join Sanctuary? No, of course not, because the leaders like power, so they'll make their own little factions, etc. Some will repent and come back to be under True Father's authority.

We are Honorable People

In different countries, even in the America Revolution, there's only three percent who will actually fight, who stand in line and get all the attack; three percent who are the true patriots. About a third will support you; they're not brave enough to stand on the front line and fight, but behind the scenes they'll support you. That's like a third. Then a third is kind of fence-sitting, and a third will go to the evil side, the British side for example. And depending on what choice they make; they are condemned throughout history or they are thanked by their descendants. People understand that all the decisions we make do not only have eternal repercussions for ourselves, but they also have historical repercussions for our descendants.

I could not be in a position where I could tell my children, "*Oh, I stayed for money. Daddy wanted that money and that's why I sold out on True Father.*" What would I be teaching my own children?

It's BETTER that I become a popper on the street and don't have a house and live in a tent. BETTER, BETTER, much better that they see Daddy go through that and yet not lose faith and keep pushing through and see God work miracles. Amen! (*Applause*) Much better for them to see that!

I like training anyway; I don't like it easy. I like it hard, dang on it! That's the lesson I want my children to learn and see and visibly powerfully taste and touch. They all felt that because they had to walk through it with Daddy. They had to see all the hate, they had to see all the scorn, they had to see all the condemnation; the people saying, "*Die, die, die, you piece of sh-!*" They had to see all of that. These are people that supposedly loved you as True Family and proclaimed "*Oh, we love True Father.*" They realize people are very, very fake.

You have to have strong relationships with honorable people, because if you have relationships with evil and fake people, there is no honor in a den of thieves and they will stab your BACK when it is no longer profitable; which is now happening in the Family Fraud.

There is forgiveness

They're now STABBING each other's back because there's no more money coming in, no more money now. None of them knows how to make money; they only know how to steal it. They're professional stealers and embezzlers; they don't know how to build anything. So, they're in big trouble because now all that fighting that was pacified by money, the pot of gold; well, that gold is now evaporating. You see what happens folks? Utter chaos; the backstabbing only will magnify it.

Yamagami, the guy who assassinated Abe was filled with great ANGER, and the anger of those people will even grow larger. Why? The people are so pissed that the Han mother is demanding this and that donation. Since Japan can't send money, they already demanded 3,000 USD per family in Korea. The Korean church is not used to donating a PENNY, and all of a sudden, they have to drop 3K! They didn't listen, they didn't do it, so it was dropped to 1K, "*Okay, if you can't do 3K, do 1K.*" Which shows what? It shows you didn't really need the money, did you? If you dropped it down from 3K to 1K you just proved to me you don't need my money; you just tried to eyeball it and see how I react. So, it only pisses them off more. You understand?

Especially for people who never practiced donating; who never practiced being generous, never practiced contributing to God's community. They've never done that. All they've been doing is demanding, "*Where's the money? Yeah! Japan has to pay indemnity! Give me money!*" That's all they've done as their faith. What happens when that all disintegrates? Well, it becomes hell on earth; it becomes hell. All the fake pleasantries and, "*Oh, we're fine,*" and, "*Oh, we're doing great,*" that starts breaking down very quickly. The leadership starts fighting, backstabbing very quickly; they start breaking off and making their own sects very quickly.

The ones that are coming for money, don't come to Sanctuary! We don't have any money; we have zero money, zero. Don't come to Sanctuary! We don't want you to come here and try to enact your shenanigans here. No, we like honorable people. Anybody can be forgiven but we keep an eye on you if you're one of those crazy ones. (*Laughing*)

No, no! Anybody can be forgiven, just like the brother who received forgiveness and came under Father's authority again. He was a leader so he made a public apology that he went against True Father's Kingship that he established on earth; he apologized and he's receiving the Blessing now. Since he's a pretty senior leader amongst at least the ministerial class, now you see other ministers shaking immensely, and they'll be falling very quickly from their wickedness and be saved once again. You know we don't condemn them; it's sad that they were foolish but none of us are angry at these people.

I mean we've not been focusing on their heresy; we've been moving forward and trying to preach the Gospel. We've been trying to stay BUSY building the festivals and creating the networks etc. That's why we have a pretty giant network in Pennsylvania and we've just started building that one in Tennessee.

But the point is: when the leadership does come back, and they bring their flocks in again, yes, there's forgiveness; we're not vindictive people. It's better that they get saved ten years later than never, and literally go to hell in total separation from God and Christ forever. That's bad, and we don't wish it on anybody, but God will give you what you desire. So, in the end it does not profit the wicked to do evil. For young people it may seem that the world is kind of sinister and it's wicked so you got to kind of play rough and do evil sometimes. No, it doesn't pay folks; it doesn't pay. It always comes back to bite you; it ALWAYS, always, always, will come back.

It may not happen this fast. This was pretty fast; seven to ten years, that's really quick in terms of history, super-fast. I mean how many decades did the Israelites fall away from God and lived in TOTAL heresy? I mean literally generations, right? So, seven to ten years? That's VERY quick; very, very quick. I mean that is VERY fast; personally, I'm surprised. Jeremiah was preaching and he had to wait seventy years before Babylon came? So, it takes time folks, history takes time. But seven to ten years that's extremely fast to see a GIANT collapse in the way that Father's heir and lineage predicted it would happen. So, it's a very quick judgment in terms of history.

And of course, God is only doing that because He loves people and He can't let wickedness succeed and continue on. In fact, for the people who are entrapped and ensnared in the Family Fraud and the lies and deceit, it's the greatest thing that could happen to them because for once they're confronted with having to face reality and no longer just do the social club stuff. You have to make a choice: do you believe Father is the Returning Lord or is he not? If you don't, just be honest about it and just do what you're going to do. But if you're pretending, you know you're dishonorable. Don't be dishonorable! Which one is it? Do you believe or not? If you believe then you have to obey him; if you love him.

We Love Him So Because He First Loved Us!

That's something we've said for ten years; that's something we live by, that's why we didn't get bought off, that's why we didn't get swindled in to do the heresy. Because we live by it. We're honorable men; we're not prostitutes. You can't buy me to go against my father; you can't get me in. And look! We passed a test that only 0.00001% of the whole world can pass. We passed it because I literally had BILLIONS of dollars in my hand. Do you understand? If I wanted to fight legally, I could just keep all those organizations in my name. Do you understand? We literally passed the test that only 0.00001% of all historical people can pass. We did it! So, there's no amount of money you can give me, because we PROVED that we don't serve money.

There's no amount of social pressure you can make for me to disown Father. NOTHING! The Family Fraud produced the maximum amount of social pressure to try to make me conform, but they could not succeed. Because my love for Father - and Kook J-hyung too - our love for our father is bigger than ANYTHING they can give us, ANYTHING! See? That's the power; the power was love. It was NOT money; it was NOT resources; it was NOT status. The real power was love.

That's what Christmas is about folks; in the end, Christmas is about love. It's about the great love of God, and that love is the thing that helps us be victorious over mockeries, over people wanting to kill us, people condemning us. All the people who came to Sanctuary got condemned, got lambasted, they're innocent; we're not innocent on Jesus' level, but we're relatively innocent. We were actually pursuing truth; but everybody to a certain degree got lambasted, got attacked, got mocked, got cursed, got laughed at, got told, *"You're a failure and you're in a cult."* When they were the ones in the cult and using social pressure to try to make us conform to evil, to wickedness and to betraying the Lord.

It's like the French general who came out, and said *"You people are the heroes,"* to all the people that did not get the death jab despite all the social pressure from media and school and teachers and army and generals and presidents. He literally is saying, *"You people worldwide who didn't get the death jab, you are the heroes of society. We tried EVERYTHING on you; we tried all the social pressure on you and yet you stuck to pursuing truth and didn't buckle. You people are the heroes."* This is French General Christian Blanchon saying that.

<https://rairfoundation.com/french-general-pays-tribute-to-the-unvaccinated-they-embod-the-best-of-humanity-they-are-superheroes/>

That's on a macrocosmic level, but on a microcosmic level it's the same about the people who pursued Father truthfully, not getting their ego involved and getting their social-club kind of thing involved in it.

"What is true? What did Father want? My love is for the Messiah; what did he want? I'm going to do that even though I get hated, scorned." That doesn't mean we're perfect or anything and it doesn't mean we don't bicker with each other once in a while and stuff like that. (*Laughing*) It doesn't mean that, but it DOES mean there's something very special.

There's something called LOVE here and it's not like this fake kind of love, "Oh, I love you, I love you"; not that kind of baloney. No! **We LOVE Father**, we LOVE Father! (*Applause*) We know who he is and we LOVE him. And there's no amount of social pressure you can put on us to make us not love him; there's no amount of money you can give us to make us not love him. You see, because a power is greater than anything the world can give us in our life; that's our love. Why? Because the Bible says, "*We love him so because he first loved us!*" (1 John 4:9) Hallelujah! That's why!

*We received everlasting life.

*We received the lineage of God.

*We received the fullness of joy because we knew the Lord.

*We received all that. That's why we love him so much. That's why we can't betray him. We won't betray him for money or social pressure. That stuff is weak; we won't do it.

And there's something incredible about that spirit- by the way I'm not trying to stroke anybody's ego. But that's the spirit that creates civilization. It's not a destructive spirit; that spirit is the constructive spirit that holds together and builds a civilization of goodness. Then you couple that with the Constitution which is bound to protect citizens from the overreaches of the government, through liberty and responsibility, and you have the most incredible, incredible situation that the world has seen.

So, folks, God is good on Christmas! We know it's not Jesus' birthday but God is SO good! Oh, my goodness! Did y'all see this incredible video of this young Jamaican child? He's singing with a Jamaican gospel singer. Unreal! Oh my gosh! I've been singing the song for my grandbaby. You see this little Jamaican kid; this little black kid and he's singing this song. Oh, my Lord! It goes like that: "*Lord, I thank You for sunshine, thank You for rain, thank You for joy and I thank You for pain. It's a beautiful day.*" He's singing it so much purer.

(Original song by Jermaine Edwards)

(Song playing & Pastor Sean singing harmony on it)

Wow! Hallelujah! (*Applause*)

MERRY CHRISTMAS, folks! God is good! God is good! God is good! Hallelujah.

Let's all pray!

Pastor Sean's Prayer

Father God, we thank You for this beautiful day. We thank You for this Christmas Day and the memories that You have given us, and all the sunshine, all the rain, all the joy, all the pain. It's a beautiful day today, Father, because we can think of You, we can love You and we can praise You with all the people around this world who love You, who stand for You.

Dear God, you have led us through an incredible course and we are just so excited to see it unfolding before our eyes, history in the making; generations will be talking about this love story. We are so blessed and honored that You have called us into that walk, to stand with You on the battle lines against the wicked and the forces of evil across this world, from the micro to the macro.

You have taught us that through all this, it's truth that matters, and that *"You are the Way, the Truth and the Life."* It's You that will open the way, that will split the Red Sea, that will make Pharaoh's armies fail in their pursuit.

Dear God, we know that on this great day of Christmas, we celebrate the incredible persecution of the innocence of the Lord Jesus Christ, but yet, the triumph over the grave and over the persecution and the mockery and the hatred and death, to walk with You in the spirit, with the POWER of the Resurrection and for generations to come await that time when the Lord would come.

Dear God, we are so GRATEFUL that You have RELEASED True Father's VICTORY upon this earth, that You have RELEASED Cheon Il Guk upon this earth, that You have RELEASED the Kingdom upon this earth. You have loosed it and as Your Word says, *"Whatever is loosed on in Earth will be loosed in Heaven."* We are so blessed and grateful.

Even though we are not deserving by our own works to be in this walk with You, we know that it is by Your grace and by Your love that we have been called to such a time as this. Thank You for giving us the wisdom and the discernment. Thank You for giving us the courage and the honor to pursue that which is true, which is righteous and which is good.

We thank You. We want to give You praise, glory and honor. We thank You with all the folks from around this world that are here today, that are praising Your name and giving You glory. We pray in the names of all the Central Blessed Families gathered here with Your Three Generation Kingship. In Your precious name we pray. Amen! Aju!

All right folks, Merry Christmas! Let's give it up to the Lord! (*Applause*)
Let's all rise and give Him praise! Thank You Father! Hallelujah!
