

Pastor HJ Sean Moon

Liberty or Death

Sanctuary Church Sunday Service 08/20/2023

Good morning, folks. Praise God. What a beautiful day! Gorgeous, gorgeous day. And to all those folks out on the veranda, we see you. Praise God. God is good.

All right, folks, we have a busy week this week. Let's get into the Word.

Thank you for checking out the King Bullethead songs This song we put out, “King Nobody,” was a very moving one, very heartfelt one. There are others in the pipeline; we have six more waiting. I shared it with the Rod of Iron Riders yesterday. People were weeping yesterday. We have other ones that catalog that whole time right after Father's ascended. Let me tell you, it was very hard to write that one. We were just bawling the whole night. Even recording it was so hard. Can't keep the voice steady, just weeping.

There are some heartfelt, heartistic ones coming up but also a very fun one coming up next week because of what they are doing right now to the former President is illegal and what we see in a third world county. We see they are hitting him with RICO (Racketeering Influenced Organized Crime) case, this is what they hit a lot of mobsters with. They say Trump is racketeering and the MAGA (Make America Great Again) movement is an organized crime syndicate.

He is only number one. He is leading polls by 70 percent support. He is leading the other candidates by some 40 percent. That is incredible. You never see this kind of lead in history, maybe George Washington. You never see this in the history of America. He has 80 million people supporting him.

By the way, in terms of the black population, 20 percent of black males voted for Donald Trump. Did you know that? Joe Biden says you ain't black if you voted for Trump. That means only 80 percent of black males are black and 20 percent are white now? Totally absurd. OK. This is kind of an incredible thing.

He is hit with the RICO case, which they are saying is organized crime, with eighteen other defendants including his lawyers, his legal team, the people who give him advice, they are also part of the organized crime syndicate apparently. OK. We live in clown land. This is the reality of what is happening to our country. We have to get this back on track. And God is with his people. This is a very important time of serious prayer and also mobilization for God's people and God's work.

Let's get to it today. We are in Romans chapter 6. This is "walking in the newness of life." Praise God, Alleluia. Thank you, Father. Thank you, Jesus, Thank you, Holy Spirit.

Walking in the newness of life. Let's read this together. It is very dense section so we can move through relatively slowly. Let's study it; let's get into it.

Let's read it together. Romans 6:1. *What shall we say then? Shall we continue in sin, that grace may abound? 2. God forbid. How shall we, that are dead to sin, live any longer therein?* ("God forbid" is an old English way of saying, "Heck, no!" That's what it means. The modern vernacular has lost its luster. It means a very strong "Hell, no!")
Romans 6:3-4 Know ye not, that so many of us as were baptized into Jesus Christ were baptized into his death? Therefore we are buried with him by baptism into death: that like as Christ was raised up from the dead by the glory of the Father, even so we also should walk in the newness of life. Praise God.

This is what we all fear in our innermost thoughts and feelings. We fear the coming of death. It is inevitable. It is going to come, and the fear of death is one of the biggest, biggest tools of powers that the Beast will use against innocent people. Like in North Korea. Like in China. Like in Venezuela. Like in any other country that is covered in the poison of political satanism.

The Power of Fear

The power of fear motivates people. Very very strong So, if the powers that be can utilize that fear, then they can start changing the political opinion and also the hearts and minds of people. They can start introducing things that they wouldn't be scared of in the beginning where now they can make them scared.

Did you hear that more COVID lock downs are coming in September apparently? There are some leakers leaking that, about plans to institute more federal lock downs on the people once again. Of the world. This is not just an American issue; this is a whole world issue. We saw the whole apparatus of world government utilized their strong arm and force people to lose all their freedoms.

We saw that with our own eyes. We experienced it for three years plus. Many of us lived through that. Terrible, terrible things. Every time we went to Japan and Korea you had to get these swabs, very long. They were stingingly stabbed up your nose. Really, they purposely try to give you micro trauma

They pushed it way up here. Golly. Only time I had something like that is when I had acupuncture with sinusitis in Korea. That was the only time. It was huge up your nose. You would have to do that every time you moved from Japan to Korea to America. It was ridiculous.

It was of course worldwide, even though the science showed the opposite. And if you would say it was from China, “How dare you say this is from China?” It came from China. How dare you say that. Are you xenophobic? It came from China. Now the *New York Times* admits it and *CNN* says it came from China. But if you said that three years ago, you would be called a domestic terrorist and a conspiracy theorist.

We saw this before our eyes that people have a very short memory and want to forget it or cover it up. Think about it. It was painful and very traumatic. It’s important to have a memory. The evil beings on the planet led by Satan want you to forget things. If we forget things then we forget how much we have been abused.

Then they have a new slate to do it all again. Another round. Another round. Historically we have to remember. It was a very short period of time not just in our landscape in this country but the whole world, the whole world was suffering and there was forced totalitarianism across the whole world.

You recall seeing ladies being thrown on cement and beaten up a Australia and New Zealand. Do you remember this? People being arrested for putting up Facebook posts in the UK. This was unheard of in the Western world but we saw it. We saw this happening not only in Asian countries but also in predominantly Caucasian countries being slammed with totalitarianism, traditionally that we never thought would happen here. It was already tested for three years.

Power to transcend the fear of death

So, this fear of death is a very powerful force. But when we have a relationship with Christ, we have the power to transcend the fear of death. That is a very important thing. That is why Christian martyrs could walk into lion's dens.

Now that are hitting Trump. They are hitting him with a RICO case. They hit with four indictments and Arizona is coming out with a fifth one. So, this is over the top insane,

incredible. Organized crime against the leading candidate with a 40 percent lead over the next people in the party. And just unbelievable, eviscerating all his competition. On the Republican side 70 percent say they are voting for Trump. He is the only one they hate so much. You can know a lot about a man by who his enemies are. Amen?

All the top elites that have been pushing a cultural issues revolution and all the cultural revolutions transformations and all the transgender, and all the homosexual marriage for years and years and now it is escalating. They want to include porn literacy for young elementary school teachers, meaning they want to show children porn and then talk about it.

This is incredible folks. It is totally, totally, totally insane and depraved. Extremely dangerous people are trying to do this and hyper-sexualize your children, destroying their lives. We know from the Principle that the power of sexuality must reside in marriage. That is where it is to burgeon and light a fire in the furnace. Fire in the furnace is great; it warms the whole house and it creates a wonderful, romantic, beautiful atmosphere and it is great. But once that fire jumps out of that furnace and starts rising on the pillars and the walls then you now have a burning building. That is the power of sexuality that God intended for marriage. Marriage, Marriage

In the Western world we lost the tradition of what? Keeping your virginity before marriage. Do you understand? That was the Western cultural norm. Just 200 years ago! I'm talking about America, Europe. Through history it was the norm, normal to keep your purity before marriage.

Like for our church, that is normal. We understand that the root cause of all the destruction and desecration happens in the sexuality that Lucifer used to defile Adam and Eve in their marriage. So, preserving and protecting our purity before marriage is normal and it has always been a normal part of the Christian tradition. Always. In fact, in the modern day the Muslims still see fornication as sin. So, they look at Christians and say, "What is wrong with you people? How are you having this dating/hookup culture as Christians?" They are criticizing us, and that is not a good look! It is not a good thing and it is not a good following of Scripture and righteousness, Amen.

Keeping your purity and preserving your purity for your spouse. What an honorable, beautiful, incredible thing and gift of God that is! It requires a type of spiritual discipline and it was essential for the church for two thousand years.

One hundred years ago with the advent of the Rockefeller Foundation, all these liberal studies pushing the third-wave feminism on the population. They are destroying the marriage bed, destroying the family. The wife must divorce her husband, kick out the

man and marry the state to get welfare checks. All these systems come in and then we start losing our basic Christian morality. Right? Like, don't play around before marriage. That is a cardinal sin. This is a serious sin before God. God hates fornication. The Bible says that fornicators will not inherit the kingdom of God.

So, this is a serious cultural shift that has to happen to make America godly again. What does that mean? Young people have to start to think discipline once again. Not just ethical or moral but sexual discipline. You have to be able to control your organ. Are you with me folks? This whole chapter of Romans is about how you have to control your instrument. This is like basic Christianity 101. How did we lose this in the Western world and give that up for a dating culture where it's OK for kids to be playing around before marriage, having sex. This is a terrible, terrible destruction of the family.

Christianity 101

This is like Christianity 101. We know that, sociologically speaking, if have you one extra partner before marriage your divorce rates increase by 50%. So, it is statistically proven as well. If you want to wreck Christianity, you have to wreck those sexual morals. It will increase the divorce rate by fifty percent if men and women have one partner out of marriage just by Satan doing that one thing. Isn't that incredible, folks? Just by doing that one thing Satan has wrecked those families and the percentage chance of maintaining stable, strong marriage.

This is a big deal. This is a really big deal. This is not just the Moonies where Father was always teaching us the Principle as our core theology. No, this used to be a pillar of Christian civilization.

In Europe they had the chastity belt and I don't even know how those things work. I am not saying to bring those iron shackles out because people just go to a locksmith and get it unlocked and lock it up again. It cannot be done by coercion but the culture has to say no to this generally speaking. There has to be a cultural shift and then that stimulates young people's conscience to have self-discipline, amen? And then people overcome those temptation that come especially when they are younger age group and as we grow older, as well.

So, this aspect of Christian culture has to be restored in order to make America godly again. The key to the Marxist takeover is to introduce these aspects of immorality and normalize them because then you can't hold together families so well. And because you can't hold together families very well then big government becomes a necessity. People feel they really need it. You can't rely on your husband anymore: he is philandering or

you are taught to hate him. You can't rely on your children because they are taught to hate you and they think everything you do is old time and old-fashioned.

They are taught to always be separated. So, in the mix big government and the 666 Beast can grow. Fundamental to Satan's system is the introduction of immorality and depravity, and that is done through culture and music. We talk many times about Hollywood being the praise and worship team for Satan. Literally when they are up on stage they have little Satan worshippers where they have fire and everybody is dressed like a devil and people are laughing, just playing around, joking. No. That is not joking. They are truly trying to normalize Lucifer as the good guy and Jesus as the bad guy.

Just like we shared with you last week with Craig Sawyer, The Navy Seal Craig Sawyer. Please support veterans for child rescue. These are the specials ops guys who use their skills to catch the pedophiles. Please support them. We want to let folks know about this. <https://vets4childrescue.org/>

Craig Sawyer is a man of God. His father was a pastor and he is a man of God. He is a good friend of ours. He is actually coming to Nashville in a couple weeks so we hope we can hook up with him.

Craig has shared the satanic ritual abuse that these people are doing. They are not just trafficking children; they are trying to destroy their relationship with Jesus.

I shared with the story last week of the 8-year-old girl who was being trafficked and what those satanists did to her. They electrocuted her and told her to call out to Jesus, call out to Jesus. So, she would scream out, "Jesus, save me" and then a man dressed up as Jesus in an iconic fashion with a beard, white toga, and red shawl. And that rapist dressed up like that and he would rape her and violate and destroy and kill her soul.

This is what is happening in the world of trafficking. The young girl is utterly betrayed by the abuser Jesus. He abuses and then he abandons her. He is more of an abuser than anyone before and then he abuses and abandons her. Then what happens? Then he goes into another room and Satan is sitting there with all the candy in the world. "Oh, baby, what happened to you? That is so terrible. Jesus always does this. He always betrays you." And then he says "Satan has power here. You have to serve Satan. Come here and have this candy and these good things." Do you hear what I am saying. They are playing games and they know this will be devastating for this child's relationship with God in the future. Are you with me folks?

America is the #1 trafficking country in the world

So, this is the reality of this world and every church should be talking about this. This is the tip of the sphere of Satan's kingdom and he is hunting the children. People must be aware of that fact. America is now the number 1 sex trafficking nation in the world. We, America, used to be a Christian nation. America is the number one trafficking nation in the world. It's not Thailand, folks. It's America. People come here to rape children.

This is what we have become. Nobody wants to talk about the reality. Everyone wants to protect their 501c3 or donation stream or whatever the case may be, maybe fill the pews. Christians have to be interested in truth. Without this we won't have a country to even practice in. This is unbelievable but this is state affairs in reality.

Please pray for Craig Sawyer. He is coming to Nashville in a couple of weeks. Go support the work at Vets for child rescue and also Donny Jr. is also coming in September for the TFA, Tennessee Firearms Association meeting as well so please come to the meeting in Nashville September 9. Donny Jr. will be there and we'll be taking pictures and hang out with good friends. He is good friends and he always comes to the shot show booth and the Tommy Gun booth. These real patriots are fighting, fighting, fighting, fighting, risking everything to fight this apparatus.

Jesus was a felon

This is a real thing. How much are patriots risking? Look at Trump and people like Trump and these people who are risking everything to try to fight this apparatus. And that is what is required. This is a martyr spirit that, as a country, we have to have in order to be able to transcend death.

“They are going to ruin my reputation by throwing me in jail.” So, Trump has five indictments, potentially ninety-one felonies, including RICO. This is unprecedented with federal felonies and usually conservatives would say no but listen to this. Jesus was a federal felon! Do you understand? The Christ that you worship as a Christian person was a federal felon of the Roman state. Do you understand that? That's what it means to be persecuted!

He didn't say pick up your pina colada drink and follow me to the country club. He said take up your cross and follow me. Be ready to be hated and mocked and killed for my name. We have become the opposite of what the Scripture has taught us about being brave being ready to get hit by the enemy.

It is not just that we get saved, we get blessed and all good things happen. No. You get blessed and then get ready to be struck by the enemy. How many times does that happen. Someone gets an incredible blessing, a blessing of marriage and then immediately that

blessing gets attacked. Some seductress or adulteress comes to try to destroy them. How many times does that happen? So often that happens.

Children are a blessing

Because when we start to put our life, our newness of Christ, the old man is still chained to Satan's kingdom, Satan is using that to get us to come back to him. So, this is the point to sever those ties and to walk in the newness of life with Christ., Amen. America has to start to sever the ties of the old in terms of our depravity that we have been getting into. We have been destroying marriage. We have taught young men it is all about money. We taught young women it is all about careers.

We have taught them that children are a liability. "They are going to cost you a million dollars per child." That is totally a lie, by the way, especially if they are home-schooled but it is completely a lie. We have been told it will cost a million dollars so you have to be a multi-millionaire to have multiple children.

What happens: You are demonizing children; you are demonizing marriage. What do you think is going to happen to the marriage and to the children? People are going to start resenting their children, thinking they are a burden and you want to get them out of the house as soon as possible. "I want to throw you on the yellow bus so I can have some peace of mind." Where does this terrible attitude come from? It's a terrible attitude.

"You children are a burden, a burden to me. You are stealing my life, my joy, my youth." This is such a wicked culture, folks. The Bible says that children are a blessing from God. Blessing! Imagine even if you don't say that but that is the culture of the house. That is already traumatic to the child and he doesn't feel love that place. How can he feel the love of God if he is not loved in his home? And I am not telling you that you have to be perfect but this cultural value is very important because Satan will use the culture war to start influencing the family wars. We have to be very careful how we are thinking especially in our spousal relationships and in our parental relationship.

There is a sister in Christ. who was a prostitute. She was trafficked for 18 years or so as a teenager and now she is out. Now she is out. She got away from pimps and she is now trying to get other girls who are in that industry out of that industry.

She was saying that, in that industry, of course, they tie you emotionally, they tie these girls heartistically, their pimps trick them in believing to them but it is illusion. They trick them that say, they will start a jewelry store, for example. They take all your money, they beat you, and you don't make anything. It is all illusion. Say that was the girl's dream that she wanted to start a business. So, all the money that she is making she

is thinking that the pimp is using that money to start a jewelry store but he is actually using it to get more girls.

This is the reality of that kind of landscape. It was that kind of world of evil and depravity that these people live through. So, she was in the valley of death. Eighteen years a slave. She was beat up. If the girls try to run away, the pimps literally kill them. One of her friends was shot right in the face. They sent a hit man on these girls because it looks bad for the pimp if the girls are running away with no punishment. She was basically in a mafia gang. When she is finally saved, she set a course, she found freedom. Somehow God organized it and she was able to get out of there, get away, and in the end after some healing she started this organization to help girls out of that terrible valley of darkness and death.

And it's almost like God, through that valley of death, when Christ touches them and frees them, the amount of gratitude that people feel when they came from this terrible background is so deep and so profound. And the love they can feel from Christ, being washed and being healed and being cleansed! She said she had thousands of partners. God sent her a man and she is strongly married in Christ, totally healed from her past and now she is working to free other girls.

Satan want you to fear the past

Satan wants you to fear the past, he wants you to fear the mistakes and he wants you to live in shame and guilt. But in Christ we receive newness of life. Everything becomes new! The old man dies, dies, dies, and the new man, the new creature, comes alive. The new creature comes alive through the Holy Spirit.

Let's keep moving on through here. See Romans 6:5-7

5 For if we have been planted together in the likeness of his death, we shall be also in the likeness of his resurrection: 6 Knowing this, that our old man is crucified with him, that the body of sin might be destroyed, that henceforth we should not serve sin. 7 For he that is dead is freed from sin.

Folks, it is not like sin comes upon you and you just say, "Oh, I couldn't help it. I just sinned." It is about serving the Master. It is also a choice! Somebody will say, "Being a homosexual is not my fault. I was born with it. I have the gene." They tried to find the homosexual gene. Dr. Panzer is an expert in the field and he has been educating public schools about keeping yourself pure before marriage as an option for young people. Don't just think the answer is philander and fornicate or be celibate. You can also keep yourself for marriage. He has been an educator for thirty years.

It about serving sin. People may have that predilection or the devil may confuse you, make you have those types of thoughts. Look what they are doing to this generation of young people. Trans-genderism is being pushed very hard on them. Males that look like females. You have health advisors that come out and say if you are dating your girlfriend and she has male parts on the bottom, you are not a homosexual. Do you understand? They are literally saying this to young people. If you are dating and sleeping with somebody who upstairs looks like a woman, downstairs is a man, you're not gay. Let me tell you something: you are gay.

Are you kidding me? This is ridiculous. This is what they are telling young people, and of course gay porn is being pushed on the young people. That is what they are trying to do with this porn literacy: to push and expose kids to gay porn where the gay people are dressing up like women. Do you understand how dangerous this is, folks? Totally dismantling our normal biological instinct to be attracted to an attractive female as a male. The person physically upstairs looks like a woman. If you have a little attraction to that person then it is OK to come out of the closet and be gay. And it's called serving sin. The devil will attack you. They are trying to push this heavy on young people because they don't want you to populate; they don't want you to have children, which is suicidal honestly speaking. Asia has followed this and now they only have 1.2 children in terms of population replacement. Who is going to pay for all the taxes in the next generation? Now in China one young person has to pay for six adults. Six adults. How is that sustainable? In Japan and Korea, too, where there is 1.2 population replacement. You are going to pay so many taxes, the government will take everything you make cause now you have to pay for everybody who is in debt. You see how it works, folks. There is no free lunch, folks. This is the reality of the world and how it works.

But they are pushing this, especially gay porn, on children. Why? Because they want to destroy further God's intention of man and woman succeeding. Man and woman in marriage should be the most powerful force of nature. Not a hurricane or cyclone. The most powerful thing in nature should be husband and wife, amen? That is the most powerful force in nature against Satan's apparatus, against Satan's kingdom, Satan's power, and Satan's stranglehold: Satan's operation. It is the most powerful force of nature.

That is what a blessed family is striving to become. A blessed family anointed and coronated, as king and priests and queens and evangelists, in God's kingdom, striving to be a force of nature for God, for good. For morality, for ethics, for true sexuality and the preservation of godly sex in marriage.

The most powerful force should be between husband and wife. Amen. That is the most powerful apparatus of nature. And this is why mind-body unity practice is important.

Not that we be saved by it but we are becoming more brave, more powerful cogent union from which God can use his instrument to effect his kingdom on this planet. And it starts in that unit, right?

Peace Police and Peace Militia starts from the husband and wife. It starts from capable, ethical, powerful husband and wife. That is the root and the center. And a part of the home comes from when the husband and wife have a great relationship and fun in their relationship, celebrating God's joy in the relationship.

The power of relationship

Playfulness in the relationship. The children feel that from Daddy and Mommy. If Daddy and Mommy are cold and never talking and never dating and never investing in the relationship. The children sense that like kryptonite, or one of those fish that senses electricity. They can sense that in the atmosphere. Amen. The power of our relationship. that we have power in the relationship. There is great perfume, anointing in the air, love, there is romance, there is playfulness and there is fun. And children feel that and they feed off that. It feeds their spirit. It cultivates a good healthy desire to in the future want to get married in the covenant of marriage, too.

So that is why it is so critical that we balance all these things. We can't expect to work 100 hours a week and have a booming wonderful relationship. Because you just can't do it. You're too tired. You get tired. What do people get tired in like 60 to 80 hours and that is if you are working real hard. When you are working 100 hours a week, guess what is happening. We prioritize that over our relationship that God has given us as a covenant. Something will suffer because we are not machines. We are not robots. We have a limit and we have limited energy that we must use in the proper places not to just succeed in the world but to make our Heavenly Father proud. In the end, the purpose of life is to return joy, return love to God. Amen.

It is absolutely critical that the husband and wife anointing and covenant of marriage always has the investing mindset, the investor mindset, the royal mindset of investing into that relationship. Let me tell you folks. There is no royal family, not even satanic family, on the face of the planet that teaches their children that paper money or digital money is real money. Not one royal family teaches that. Why? Digital money is not real money and also printed money is not real money. What do even the satanic families of the world teach their children. What do people teach their children: to accumulate real things. They invest in real things like gold and silver and land, and networks, and relationships. Even satanic kingdoms know this that you have to have a future-looking mindset not just play for your life now.

That is what they teach. The slave mentality is to just use up all your resources now so you can't be future competition. Use it now. If you have five bucks, use five bucks now. Play. Buy sugar candy. Buy alcohol. Play, play, play. This kind of hedonism culture, this is what they are purposely teaching slaves.

Why? Because you can't serve God and mammon at the same time. It's about who you serve. (Mammon is the god of money.)

It is absolutely critical that the blessed families, those people under God's authority, crowned as kings and priests and as queens and evangelists that we have a royal mindset looking into the future. What is key for a royal mindset is understanding lineage, to keep the lineage.

Protect your bloodline

My bloodline matters. In God's world you are supposed to protect your bloodline. That is a royal mindset. My lineage matters. The seed matters. My progeny matters. They are not part of the state and no one owns them. These children are carrying on my name. This used to be a big thing, like your last name, carrying on the name. It used to be in traditional Christian marriage that you gave your last name to your wife. Is that true? And then the dad walks the wife to the front in the marriage ceremony to the husband. Now what is he saying. Now you are responsible to take care of this girl like a father, meaning to provide for her, Amen? The man is also now supposed to have the father's authority. It is not like you are to take care of her and provide for her as the dad does and then have no authority and she can beat you up every day and all day, every day, abuse you, demean you and belittle you. No! She is also supposed to respect you like her father. That used to be part of Christian marriage. Isn't that true? Ask Grandma, ask Grandpa, folks.

Why? Because they are following Ephesians chapter 5 where God commands you to unconditionally love your wife (and to change her by loving her) and commands the wife to unconditionally respect her husband (even though she may feel at the moment that he is not respectable.) He has got some hard homework. Such hard commands. It tells us we don't want to love her because she is unlovable. Then I feel I want to be bad and mean. No! God says you be loving. Agape. And to the daughter God says you be respectful even though you feel right now that he is bum, and maybe he is right now, but be respectful. Be respectful to the bum right now because he is my son.

Are you with me folks? This command is a big deal. This part of the marriage culture is so important. If you don't have love and respect, if the man is commanded to love, love, love, he is going to burn out if there is no respect. If the daughter of God does not

reciprocate with respect, and the culture allows her to demean him and disrespect him, then the man is going to burn out. That is what happens with Christian marriage. The men burn out. Everybody is burning out in Christian marriage.

We have worse marriage retention than the outside secular satanic kingdom marriage. Not our church. We have very high retention rates. But normal Christian church has unbelievable terrible retention rates for marriage.

That is a terrible crime against God's covenant. He made this in the beginning He made the covenant of marriage. It is a big deal for God. It's a really big deal. It means a lot, lot, lot to God. He even uses that as a metaphor for the relationship between Christ and the church. This is a critical, critical, deal. How do we succeed if the whole world tells us the man has to make all the money and he has to be loving and patient all the time but the daughters of God can whoop him, belittle him and treat him bad and scoff at him.

No, that is not what God says, daughter. That is what the world says through third-wave feminism that Rockefeller wants you to hear. That is not what the Bible says. You have to respect the husband. The man needs just a little bit of respect from you and he will die for you. He will go to war for you. He will fight the trolls, and the troglodytes and the dragons and everything. If he gets a little bit of respect and a little of loving, that's all a man needs. We will go to the ends of the earth. We will chase out the dragons in every cave, every tiger and every bear. We will hunt them all down. Just a little bit of loving and a little bit of respect. That is why they become the glue to power, holding it all together, especially in marriages. The character of the culture is a big deal.

How come we lost this as the Christian culture. This is a pillar of Christ to our culture. If we lose it what happens we all start drifting apart; we become vapors and clouds, going about separately. What happens then is that all the relationships that God intended to be strong start evaporating. And why are they falling apart? From what? Money, materialism? For this or that product?

Was it all in the end, worth it, before we die, to break all those relationships? No, of course not. We know it intrinsically. We know in our heart of hearts; we know that is not what we are supposed to do. But that is the way the culture tells us to go. So, it is not a surprise that God's families, God's marriages have been devastated, desecrated, falling apart; it's not a surprise that marriage is in shambles.

We don't know what is man and woman anymore. Husband and wife don't mean anything anymore. We are cohabitating. That just means fornication! That's all it means. They just put a nice little name on it. From a Christian perspective that is fornication. How come we have lost these main cultural values? And the center of it all together it

made man and woman love each other and respect each other. It made them have a sense of responsibility.

We need our tribe

Even in the German culture and you are from Latin America and Europe you say, “Hello, uncle” or “Hello auntie” We have gotten to the stage where we are no longer acknowledging these relationships. We just say, “Hey Mary, hey John.” Everything has become so individuated., atomized, separated, isolated. There is no sense of communal or tribalism relationships. The West has lost its understanding of a tribe. Everybody is an atomized atom in the big city, running around and being a nobody. And that is why there is more depression and more sickness in mental health.

There is no tribe, there is no support group. Separating it all away. When these are essential for our survival. In Korea people are very tribal. A lot of ethnicities like Indians are very tribal, Latinos very tribal. They understand that is part of the culture. A tribe is part of the culture. There is no questioning that.

But look what happened to the West. It has become so individuated, so atomized, so separated so it is easy to take you over. They split you apart. It is easy to turn you against each other. You no longer have consciousness of a tribe. You understand that the Vikings were a tribe. Folks from the north from Europe were in tribes. All your ancestors were in tribes. They went to war in tribes, battling in tribes, hunting in tribes. They were all in tribes.

How have we become so individuated? So separated? In one generation or two generations back you would say, “Uncle John” “Hey, Aunt Maria.” You would still honor the positions of the tribe that are connected to you, which gave you a sense of communal relationships and responsibility. You are not just an island floating in the vastness of cosmic dust alone. You are moving together with a tribe. Amen. And these things actually matter. In Korea for example you call your wife “wife” and you call your husband “husband.” It sounds so weird. Do you hear what I am saying? It sounds so weird to the Western mindset. It sounds so strange. You call your husband after 25 years “husband” and you call your wife “wife”? This is weird to the Western people, the Western mindset, to what it has become. It is critical to remember our identities and a sense of our responsibility towards one another.

It's not like this is an attachment to the position; it is an understanding that we are part of a tribe. Because what does husband mean? It doesn't mean just a man married to this girl. It means this man who is tied to this daughter of this family. That is how tribal peoples think. Like my wife represents a whole kingdom and we are married into that

family, and vice versa, she is married into the husband's family. These two families are coming together, right? They are not individuated, atomized individuals, with individuated cell phones and everything where everything is segregated, separated, boxed apart and compartmentalized. No! These are fluid relationships. There is community. There is fellowship. There is family all tied into this. And that used to be a big deal, especially in the south and maybe it still is. But a lot in the north have lost this. They feel completely individuated.

In a terrible situation, when there is a national war, a civil war, or whatever you call it, even World War III, how critical is it to have a tribe and to have community? It is so critical; you can't do everything by yourself. We mourn the folks who just want to do it all themselves. What happens. Even a very tragic case in this area one of the neighbors committed suicide. It just got too heavy for him. He was trying to hold that whole burden by himself. Very sad situation. But even in the prepping community where people sense something bad is coming down the road, there is a tendency to want to be lone wolves. You want to do things all by yourselves.

You look at any historical conflict; you can look at Ukraine right now. On the battlefield they are fighting a war. Inside that battlefield, things are operating fine. You see pictures of the kids in Ukraine having pool parties still just now. They are literally having pool parties while the war is going on. Have you seen the videos of this going on? How is this happening? Because in the war front there is a war but inside that there is still economy moving, there are still goods to sell. Buying and selling still operates relatively normally even in wartime. You still operate relatively normally even in wartime.

So this idea of a complete apocalypse and all society is a lone man in the woods. Good luck. If you ever try to go to the woods and survive in there, with no fortress and no fortifications and no team, good luck. There are going to be a lot of roaming bands even in that worst case scenario.

The sense of fellowship and tribe is so important. That is what a royal family understands. Royal families understand it very big. They understand the concept of a tribe because they don't see themselves like this guy loves this girl. No. They have the concept of the tribe. That is why they are able to maintain their wealth over time over any other group. Because they have a very strong understanding of what is a tribe.

In the Western world this is lost: an understanding a tribal mindset, the positive aspects of a tribal mindset. The tribal mindset has become lost. Its like we are studying aboriginal people. It is like an exercise of academic inquiry. It is lost in the culture, whereas it used to be strong. Right? People could rely on one another. Didn't have to lock cars. How did all that happen? Everyone knew we were a tribe or a neighbor in that

neighborhood. Everybody knows your mommy is going to come out with a rolling pin and whip someone if they are stealing someone's car. Everyone is a tribe in that neighborhood. I think in the south of the country it is more like that, but not near the city-south. And in the north, it is really lost. It used to be different. People look, back at that.

Have you seen the new song? "Living in a new world with an old soul." Remember that? What does that mean? He is talking about that. We are living in a crazy new world where things are going to communism but I have an old soul. I want to get back to the old neighborhood where everybody knew each other and we had a sense of community. And we actually supported one another. We invested in one another. We would see each other not as atomized individuals, individuated pieces on a chessboard. But we see ourselves as a collective people and tribe.

Our country is falling apart: being torn apart, unwoven before our eyes. There is a desire for America to get back to these roots that bind us together. Of course, when we bind it, we have to have the same values. We have to have the same values that come from the word of God. That binds us and this is why the body of Christ is so powerful.

When you study world religions on the academic level, like when I was getting my masters at Harvard, they would teach world religions, universal religions and tribal religions.

And then they would say universal religions like Christianity and Islam. Both those are able to go beyond the tribe, like the Jewish tribe, but they keep their tribal mindset and they can incorporate new people into it. So, Christianity and Islam, if you are black or white or Asian you can still be part of the tribe through faith in Christ. That is universal and became dominant religion very quickly.

The thing that bound us together, this assimilation of people immigrating to America, is the uniting with the core values of America. Or, are they bringing in totally antithesis values which will then implode our country. That will stratify our country. It will separate and segregate our country. It will drive us into more polarization and destruction and war. So, we need to get back to the central roots, the foundational roots that bind us together.

The preeminence of our loving love relationship with Jesus, with Christ brings us into the tribe. A relationship that is founded on a God of love and sacrifice, shedding his blood for you so we don't have to live in fear that Romans 6 is talking about. We can have newness of life in Christ.

And we are brought into this new tribe, of all these people (black, white, Asian, it doesn't matter) but we are brought together into a new identity with Christ. New identity, new power, new life, new purpose, new kingdom. We are pursuing that with great intent and that becomes our purpose, to bring joy to God and to further establish his kingdom. It creates an important cultural realm. But of course, the civilization of scripture stands against certain behaviors. It stands against trafficking children. It stands against pedophilia, it stands against the homosexual life, it stands against fornication. Does that up the status of marriage or lower it? If the Bible stands against fornication, sex before marriage, is that elevating the status of marriage or lessening the status of marriage? It is elevating! God is saying, "I cherish marriage."

Stop saying you can play around and play like you are doing marriage. No. Marriage is sacred, holy, righteous, and fun. It doesn't have to be boring even though it is sacred, holy, and righteous. It can be holy, righteous and pure and still be fun! Amen. It still can be fun, fun, fun! Why do people take out the fun part? That's a big part of the covenant of marriage.

The fun and the playfulness and all that romance and absolute sex is in marriage and that is a big part of the covenant of marriage. The point is this civilization stands against certain values. If we become watered down to those values, what binds us starts to crumble. This becomes disappearing. This doesn't mean anything anymore. All those people who are connected to that tribe are now floating apart from each other, like clouds, like vapors. That separates us and Satan wins.

What is happening in America? Look, that is what is happening. We have become so atomized and so individuated, we have become so individuated, so segregated and individualized that we are floating apart from each other. That could be in marriage, that could be in family, that could be with our children. It's everything, and it is permeating our culture and it is destroying our culture. So getting back to those critical values is key. And God wants us to live in the newness of Christ, the newness of family, tribe, country, the newness of his kingdom.

Read Romans, verse 10 and 11.

For in that he died, he died unto sin once; but in that he liveth, he liveth unto God. Likewise reckon ye also yourselves to be dead indeed unto sin, but alive unto God through Jesus Christ our Lord.

So, in the end we cannot be afraid of death. God brings us through death sometimes so we can be renewed in Christ. Amen. Trump is exhibiting that type of powerful courage on the macro-cosmic level. Every time they indict him, he says, "One more indictment shall secure my victory!" He is saying, "Do it again; do it again." He is taunting them;

he is trolling them! Most Americans are scared of being federal felons, but Trump is on the verge of being a federal felon. "One more will secure my election." He doesn't care. He just keeps saying, more, more, more. "Do it more!" "Put me in prison!"

He's got to show up this week in Georgia and get a locked-up mugshot in Georgia. Is he going to do it? Probably. Will it be good for him? Yes. He got locked down, handcuffed, and now he is a federal felon. Now he has a mugshot and his popularity is boosted. Why? Because everyone knows this is an innocent man. All he did was question the election. That is a first amendment right, by the way, to question something. The Democrats question everybody. So it is totally Trump's right to do so. Everybody knows this is a innocent man who risked everything to do the right thing and get in. He is not perfect, but this innocent man is being purposely destroyed and politically assassinated by destroying his reputation and making him a federal felon based on bogus charges.

But what is he saying? More. More. More. Hit me again. Strike me once more. That's like something you see in a movie. We can't be scared of death. So, Trump is exhibiting that kind of courage on the macro-cosmic level. This man is being purposely destroyed and politically assassinated. What is he saying? Hit me again. Strike me once more. That's like what you see in a movie. It requires bravery to do that and that is the martyr spirit. "Kill me now. I don't care. I will never renounce Christ." That is the martyr spirit. That is why they could jump in the lion's den or into the burning furnace. I will never bow to Nebuchadnezzar and his idols. This is what it is. I will not fear death. And our founding fathers said, "Give me liberty or give me death." This is what they said. They definitely sound like domestic terrorists in the modern world.

If you are protesting before your school council that you don't want homosexual porn material in your children's book bag, you are a domestic terrorist according to the FBI in America. The founding fathers said those things. No, I would rather die than be asleep. And that is the kind of very that the Holy Spirit is bringing back in the country. Trump is bringing back the bravery of people who are in Jesus Christ.

He is making the leader of the entire Republican party a federal felon. And every indictment he is saying, "More! Hit me again. Strike me again." Trump is doing that. He is saying, "I will not fear the death that you are trying to hang before my eyes."

And as a country we will not fear death. I will go through the fire. I will go through the indictment. I will become a federal felon. I will go to Guantanamo Bay and I will win from prison. That is showing not only cojones, that is showing elephant, rhinoceros' cojones. That is showing boulders kind of cojones. What is that doing. That is enlivening the base; it is strengthening and making courageous the base.

We are not supposed to fear death. We are supposed to walk in the newness of life without the fear of death. Fear of death is like a possession. “God has not given us a spirit of fear but of power and love and a sound mind.” The spirit of fear is a demonic possession. We know we are not supposed to walk in fear but, being human, we feel fear, especially if the government will make you a federal felon and throw you into prison in solitary confinement for 25 years. But Trump is a person too; he should also feel that fear but as a leader he is showing the way. “I am not going to be scared. I am going to do the perp walk. I am going into prison. I don't care.”

Look at Father. Every country Father did the perp walk. Every country put him in prison. He was in prison under North Korea, he was in prison under Japanese colonization in Korea. He was in prison in South Korea on bogus charges. He was in prison in the US for tax evasion for a thousand bucks. Are you kidding me? And Father didn't have to go to prison because he was in Korea and he could have stayed in Korea. He could have stayed in Korea but Father purposely flew back to America and said, “Lock me up.” Then what happened? After he got out of Danbury prison, he started the *Washington Times* and started smashing the *New York Times* and *Washington Post*. There was a totally, in the death of his political and public life, there was a resurrection. There was a newness that came about after that.

It is the same with Trump. He is now walking into political death in terms of what people normally think. He is going to become a federal felon; he is going to be hit with racketeering charges like the mob boss, John Gotti. He is going to be charged with racketeering like the mafia. If they get that through and then steal the election, then they go after the media next who support Trump and then they go after the manual people who support Trump. In the end is they make him a federal felon; they can go after all the 80 million Republicans who voted for him and are supporting him.

What happens then? If everybody is a felon nobody is a felon. If everyone is a domestic terrorist, no one is a domestic terrorist. Now people don't get scared anymore. Why? Because you made an innocent man like Trump a federal felon. This is ridiculous. We don't care if you call 80 million people terrorists. We're not scared anymore. Do you see how this transcends death? And there is a new, bold walking in life.

This is God opening a new dimension. A new dimension is opening. A dimension of courage, a dimension of newness and life but you have to walk through death. This old culture of what has got us here in America has got to pass away. Amen? There has got to be a newness. The Founding Fathers made a newness. They had very strong laws against, for example, pedophilia, sex trafficking. Very strong laws. They would tar and feather politicians. Just 200 years ago they were tar and feathering politicians.

They were the strong men that would not pay obeisance and tolerate evil. They stood against evil. So there is newness, a boldness, courage, a new strength but we have to have a new culture. And what are those cultures. It is so simple.

We got to get back to stop fornicating as a country. Stop. Stop. Stop. Wait until marriage. And then have a great time and go all out when you get married. Make lots of babies. See children as blessings, not liabilities. They are not million-dollar losses. Children are billion-dollar gains. Billions and billions—just for you!

Invest in your spouse. Invest in your children.

See your wife and your husband as this marriage is something to be invested in. You have to have fun in that marriage and give joy to God. You have to do your date training and invest in good times, laughter and smiles. You have to invest in all this. Why you making the big bucks money for? How are you going to use it? You have to use it where God wants it strong. Invest in strong relationships. Invest in strong husband and wife, strong marriage, strong family. Do the dates with children as they grow one on one. Invest in your children individually because one is an apple tree and one is an orange tree. One is a pear and one is a tomato.

But you gotta feed them differently and water them in different levels. You can't treat them all like apple trees or the others will die. You got to treat them as individual trees. Don't treat them all like apple trees. Separate, different species. That is why one on one dates with your children are so important. Now some of our young couples here with young children two and three years old are starting one on one dates with their children. How awesome is that? And they already have two or three siblings but, on their date, things are so special. Daddy and Mommy are already training them in gratitude. “What are you grateful for Mommy, baby?” “I'm grateful Mommy is so pretty and nice and sweet.” They are already practicing sharing blessing and creating a culture of gratitude. They are bonding and trust-bonding in relational bonding.

They are building this community of strength centered on God and giving glory to God. That kind of training is so important. That kind of investing in your family is so important. We've got to get back to these principles, folks. That is the only way as God is now moving in the macro with the move of the Holy Spirit and making the body of Christ brave.

Please pray for President Trump and all the folks who are being awakened in this hour because it is a serious hour but it is an historic, epic hour. It is an exciting hour, an epic hour. It is an unbelievable legendary hour and we are living in the midst of it.

Let's pray.

Father God, we thank You for this beautiful day. We thank you for all you are doing across this world. We thank you for the bravery that you are pouring in to President Trump even though he is not perfect. We pray that all the attacks of the enemy will be destroyed and all the fiery dark will be turned back on the enemy. We pray that President Trump, even though he goes into a federal felon that he is an innocent man being indicted. that he will only grow stronger and more humble and he will only love you more because he knows that you paid that ultimate price. He will only relate to you on a deeper level. He will repent of his sins and will connect to you on a deeper and deeper level and he will be able to bring so many people to awaken not to worship Trump but to worship you, to worship Christ and the culture.

We want to give you the praise, glory, and honor because you are moving so powerfully across the land. The people are thirsty. They are awakening. They want newness of life but they forget many times that they have to go through death. It is through the process of death that the old passes away and the new can be born and resurrected in the newness of life.

Recreate us, dear God. Bring us back to your godly principles. Bring us back to the beauty of family and the beauty of marriage and the beauty of relationship and the beauty of covenant and the beauty of loving you and living for you.

We thank you for all the brothers and sisters around the world that you are touching that they can be instruments of peace and your hands and feet on this earth. We wish they will flourish and be blessed and be able to prosper even amidst persecution. That the newness of life will flow like rivers of flowing water and cover this earth like the floodwaters from heaven.

We give you the praise, the glory and the honor and we pray in your precious name, Amen and Aju.
