T rue Parents mentioned that the king of the family can be the king of nation and can take over the position of the heaven and earth king. From the families of the marriage blessing for registration, their life should be centered by the Parents of heaven and earth.

“

Please live with that consciousness. You should understand that the Principle and the record of True Parents' life course are the root of heavenly law, and you should live your life aligned with these fundamentals. In your daily life, whether in your family life or at higher levels, you should never lose this. You should not be caught by your worldly circumstances.

Because I became the king of the family, you must attend the family king, and thereby liberate the king's authority to the level of the king of tribe, country, world, and heaven and earth. Only by reigning above all this, can the authority of the kingship of the Parents of Heaven and Earth be liberated.
