Today is the age of the spoken words. With a microphone I speak a true heartbreaking story to the world, all people of the world will cry. If I utter a funny story, all will laugh. From this point of view, it is a great time. The spoken words are truly precious.

I, Rev. Moon, tell you what I think. Pray! Pray ceaselessly! If you speak good words, all of them will remain in the universe. If there is a device to catch and record any words that were spoken 6000 years ago with the speed that goes back in time, it will get to catch the whispers that God told to the archangels at the time of the creation of the universe 6000 years ago. Don't you agree with this? Of course, God is beyond the limit of time and space; it would be easy to understand that.

So the words you uttered now remain in the universe. Therefore, there is a fight between the words of goodness and the words of evil. So, make sure whenever you open your mouth, you speak words of goodness. So when you open your mouth, you speak the talk that benefits Japan, and talk that benefits the world.

Note: *Origin of The Loyalty and Filial Piety* is several volumes of books compiled Father Moon's speeches (many of them spoken in Japanese) from later 60's to early 80's by Takuru Kamiyama.
