To hard to Hoon Dok Hae, Who is the best of the champion. Who is the person who Hoon Dok the most hard. Is God, Is true father? (Father does). Also true mother do not like. (Laughter) So, I only do not have.

So, do not inherit the tradition of a true mother absolutely. You must inherit the tradition of the true father absolutely. Speaking of the son and daughter with someone, is a son and daughter of the true father, is not a son and daughter of the true mother, is it? True mother is the master of management. It is a master of education grow.

Who is the hard-working champion of Hoon Dok Hae? Who works the hardest? Is it God or True Father? "It is True Father." True Mother doesn't like it either. (Laughs) The only thing I like the most is me. Yes, it's not like I'm ever receiving the True Mother tradition. She's never going to inherit the True Father tradition. Yes, when it comes to who the sons and daughters are, they are the sons and daughters of the true father, not the sons and daughters of the true mother. (Laughs) True Mother is the mother of officials. She is the master of management. I know? She is the master of raising and educating. (303-350)
